

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LAWS GOVERNING THE MARINE HOSPITAL SERVICE.

L E T T E R

FROM

THE SECRETARY OF THE TREASURY,

RELATIVE TO

*The present laws governing the marine hospital service of the United States.*

FEBRUARY 19, 1873.—Referred to the Committee on Naval Affairs and ordered to be printed.

TREASURY DEPARTMENT,  
Washington, D. C., February 17, 1873.

SIR: The present laws governing the marine hospital service of the United States are manifestly defective in this: That the assessment and collection of hospital dues is not clearly enough defined; that vessels of the revenue service, Light-House Board, Coast-Survey service, and of the Engineer Corps of the Army are not included within the provisions of the law, and, consequently, the seamen employed on said vessels are excluded from the benefits of the hospital fund; that the rate of clearance for the care of foreign seamen, which was fixed by the act of May 3, 1802, is much less than the actual cost of the care and treatment of such patients, and the loss to the fund on this account amounts to several thousand dollars yearly.

I have, therefore, caused a careful revision of the laws relating to the marine hospital service to be made, with such amendments as, in my judgment, are necessary, and herewith transmit the same for the consideration of Congress.

Very respectfully,

GEO. S. BOUTWELL,  
*Secretary.*

The Hon. SPEAKER of the House of Representatives.

AN ACT revising and consolidating the laws for the relief of sick and disabled seamen, and to better  
the collection of hospital dues and the disbursement of the fund resulting therefrom.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the collectors or surveyors of the several ports of the United States shall assess and collect from the masters or owners of every registered, enrolled, or licensed vessel of the United States, whether engaged on the oceans or navigable inland waters, the sum of forty cents per month for each and every officer and seaman

who has been engaged on board said vessel since the last return of hospital dues, which sums the masters or owners are authorized to collect or retain out of the salary or wages of said officers and seamen.

SEC. 2. That in like manner the officers of the Government charged with the disbursement of money to officers and seamen of the vessels of the revenue marine, Coast-Survey, and Light-House service, and of the vessels employed by the Engineer Corps of the Army, shall retain out of the salary or wages of each and every officer and seaman so engaged or employed, and who does not regularly belong to the Army or Navy, the sum of forty cents per month for the time for which payment is made.

SEC. 3. That consular officers of the United States shall assess and collect hospital dues from vessels which have not paid said dues at a port of the United States for the year preceding the thirty-first day of December in any year, and from vessels sold or transferred within their respective consular districts.

SEC. 4. That return of hospital dues shall be made, by the masters or owners of vessels, on forms to be furnished by the Treasury Department.

SEC. 5. That said returns shall be rendered, and hospital dues paid, by vessels engaged in the coasting trade, and on the navigable inland waters, upon renewal of license or enrollment; by vessels in the employ of the several branches of the Government of the United States, herein designated, every time payment of salary or wages is made; and by vessels engaged in the foreign trade every time an entry is made at a port of the United States.

SEC. 6. That in case any such vessel shall not have entered at any port of the United States during the twelve months next preceding the thirty-first day of December in any year, the next time thereafter that entry is made at a foreign port where a consular officer of the United States resides, a return of hospital dues shall be made to the said consular officer, and said dues shall be paid to him covering the time from the last return of dues for said vessel, to and including the thirty-first day of December last passed.

SEC. 7. That returns of hospital dues shall be made for all vessels, subject to the tax, upon the sale or transfer of the same.

SEC. 8. That in case of the sale or transfer of any registered vessel of the United States in a foreign port or water, the master or owner thereof shall render a return of the officers and seamen of said vessel, and pay hospital dues, as herein provided, to the consular officer of the United States within whose district, or consulate, such sale or transfer is made, or in whose hands the papers of such vessel may be, and the said consular officer shall retain possession of the papers of such vessel until the money found to be due shall have been paid; in default of which, such sale or transfer shall be void, excepting as against the vendor.

SEC. 9. That the master or owner of any vessel, subject to hospital tax, who shall make a false return of the number of officers and seamen who have been engaged or employed on board of any vessel, or of the length of time they have severally been engaged or employed since the date of the last return of hospital dues, shall be liable to a penalty of fifty dollars, which shall be levied and collected by the collector or surveyor of the port, subject to protest and appeal as in other customs penalties, and one-half of said penalty shall be paid to the informer and the remainder to the credit of the marine hospital fund.

SEC. 10. That, except consular officers, all persons receiving or collecting hospital dues shall keep separate accounts of the amounts collected by them on this account, and shall deposit the same, without abatement, in the nearest United States depository, as derived from hospital dues, and shall make monthly returns of all collections to the marine hospital bureau of the Treasury Department.

SEC. 11. That consular officers of the United States shall account for the hospital dues collected by them, in the manner to be directed by the Secretary of the Treasury, and shall make returns of the same to the marine hospital bureau quarterly.

SEC. 12. That there shall be appointed by the President of the United States, by and with the advice and consent of the Senate, a surgeon-general of the marine hospital service, who shall receive the same salary as is allowed by law to the supervising inspector-general of steam-vessels, which shall be paid out of the marine hospital fund.

SEC. 13. That the said surgeon-general shall, under the direction of the Secretary of the Treasury, supervise all matters connected with the marine hospital and quarantine service of the United States, and shall make an annual report of the operations of the said service to the Secretary of the Treasury for transmission to Congress.

SEC. 14. That the fund resulting from the collections of hospital dues shall be expended, under the direction of the said surgeon-general, for the relief of such seamen of the United States as have contributed to the fund, and who are suffering from diseases or injuries.

SEC. 15. That sick or disabled foreign seamen may be admitted into the marine hospitals of the United States, where it can with convenience be done, upon the application of the commander of any foreign vessel to which such seamen may belong, or upon the application of a foreign consul, and such foreign seamen, so admitted, shall

be subject to a charge equal to the average expenditure per day, incurred for American seamen, at the hospital where such foreign seamen are maintained, for medicines, subsistence, washing, and nursing, which amount shall be fixed accordingly, from time to time, by the surgeon-general of the marine hospital service. Upon the death or discharge of any foreign seamen from a marine hospital, the surgeon of the hospital shall make out an account, as herein provided, and shall deliver the same to the collector or surveyor of the district wherein the hospital is situated, who shall collect the amount from the consul or commander of the foreign vessel who is responsible for the care of said foreign seamen, and shall deposit the money so received as a repayment to the marine hospital fund.

SEC. 16. That canal-boats and vessels engaged in the bank and other fisheries, and the officers and men engaged or employed thereon, excepting canal-boats propelled by steam or sail power, and the officers and seamen engaged or employed thereon, are exempt from the provisions of this act.

SEC. 17. That the term "seamen," herein used, shall be held to include all persons engaged or employed on board such vessels as are subject to hospital tax, but shall not include "stevedores" or "longshoremen."

SEC. 18. That this act may be quoted as the "marine hospital act of eighteen hundred and seventy-three."

SEC. 19. That the surgeon-general of the marine hospital service shall prepare all needful regulations and forms for the proper carrying out of the provisions of this act, subject to the approval of the Secretary of the Treasury.

SEC. 20. That all acts or parts of acts inconsistent or in conflict with this act be, and the same are hereby, repealed.

HONORABLY DISCHARGED SOLDIERS OF THE REGULAR  
ARMY.

LETTER

FROM

THE SECRETARY OF WAR,

TRANSMITTING

*A petition of honorably discharged soldiers of the Regular Army to be placed upon the same footing as soldiers who enlisted under the President's call in 1861.*

---

FEBRUARY 19, 1873.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT, February 14, 1873.

The Secretary of War has the honor to transmit to the House of Representatives a petition of honorably discharged soldiers of the Regular Army to be placed upon the same footing as soldiers who enlisted under the President's call in 1861, and were entitled to bounty under the act of July 22, 1861, inviting attention to the indorsements thereon, and commending the subject to favorable consideration.

WM. W. BELKNAP,  
*Secretary of War.*

---

*To the honorable members of the House of Representatives in Congress assembled :*

We, the undersigned, honorably discharged soldiers of the Regular Army of the United States, respectfully submit for the consideration of your honorable body the fact that the breaking out of the rebellion (in April, 1861) found us serving a continuation of five years' terms of enlistments; it being with many the second and third re-enlistment, thus having spent the prime of life in the service of our country.

The greater part of us were stationed at the time in southern posts and on the distant frontiers, and, as is well known, surrounded with inducements tending to withdraw us from our loyalty to the Government, such as commissions in the confederate service, with other allurements held out to us by deserting the cause of the Union; but all such bribes, &c., were indignantly refused, and we remained faithful to our trust—that good old mother, the Union—with her glorious flag, “the Stars and Stripes,” which we afterward carried, and successfully defended, in many a hard-fought battle.

Many of us, from wounds received and disease incurred in line of duty, are incapable of performing any hard labor; and from the nature of our terms of enlistments we did not, nor could we under existing laws, receive any bounty.

Having known no politics, nor represented any party, further than being aware that it was our duty to sustain the National Government, which we unwaveringly did, with a will; therefore, in consideration of all this, we respectfully and earnestly ask that your honorable body will favorably consider this petition of faithful and well-tried old soldiers, to place us on the same footing as soldiers who enlisted under the President's call in 1861, and were entitled to bounty under section 5, act of Congress approved July 22, 1861, and we will ever pray.

HEADQUARTERS OF THE ARMY,  
Washington, D. C., February 3, 1873.

Respectfully submitted to the Secretary of War. Recommended.  
These men were already in the Army when the war broke out, and

were not entitled by law to a bounty, but in equity and justice they should be embraced in the provisions of the bounty laws in force in 1861, for their services were equally valuable and meritorious.

W. T. SHERMAN,  
*General.*

---

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE,  
*February 11, 1873.*

Respectfully returned to the Secretary of War.

This petition has merit. A portion of the regular troops who were in service at the breaking out of the war finished their term of enlistment, and did not, thereafter, re-enter the Army.

A much larger portion re-enlisted in the Regular Army, or joined the volunteer service with view to securing bounty.

The number who would fall under a bill covering the class of men provided for in the petition herewith is limited, in consideration of the fact that none would be entitled to bounty who subsequently received it either by re-enlistment in the Regular Army, enlistment in the volunteer forces, or who were discharged to accept promotion.

Of the 16,422 enlisted men in the service July 22, 1861, it is believed that not more than one-fourth, after serving out their terms, failed to re-enter the service. It would require much investigation to determine the exact number, but, be it small or large, justice indicates that provision should be made to secure all such regular soldiers the benefit of the act of July 22, 1861.

THOMAS M. VINCENT,  
*Assistant Adjutant-General.*

MILITARY POSTS ON NORTHERN PACIFIC RAILROAD.

LETTER

FROM

THE SECRETARY OF WAR,

RELATIVE TO

*An appropriation for the erection of two posts along the Northern Pacific Railroad.*

FEBRUARY 19, 1873.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT, *February 14, 1873.*

The Secretary of War has the honor to report to the House of Representatives, for the information of the Committee on Appropriations, that a telegram has been received from Mr. Cass, president of the Northern Pacific Railroad Company, that the Northern Pacific Railroad Company intend to put their road from the Missouri River to the Yellowstone under contract this spring. The work of construction will commence early in the summer, and he asks for sufficient force, to be stationed along the line of the proposed road. This will require a strong escort and will necessitate the establishment of two large posts between the Missouri River and Fort Ellis.

General Sheridan reports that our expense for barracks and quarters will be greatly increased, and he thinks it advisable to notify Congress of this fact, so that sufficient additional appropriations may be made for the establishment of these two posts. He says: "The posts to be established will be expensive, and I would respectfully recommend that the fund for barracks and quarters be increased, at least in the sum of \$250,000."

General Sherman, to whom this subject was referred, says: "This railroad is a national enterprise, and we are forced to protect the men during its survey and construction, through, probably, the most warlike nation of Indians on this continent, who will fight for every foot of the line. It is a matter of war requiring near two thousand troops, who in winter must be sheltered. General Sheridan's estimate is the lowest possible."

I therefore earnestly recommend the appropriation by Congress of the sum of \$250,000, to be expended in the erection of two posts, the location of which shall be selected by General Sheridan.

I concur with General Sherman in his view that this is a national enterprise and should receive the support of the Government.

It will also prove to be an economical measure and will tend to a solution of the Indian problem in the northwestern territory.

PURCHASERS OF PROPERTY AT HARPER'S FERRY.

LETTER

FROM

THE SECRETARY OF WAR,

RELATIVE TO

*A bill to authorize the Attorney-General to adjust the claim of the Government upon the purchasers of property at Harper's Ferry.*

FEBRUARY 19, 1873.—Referred to the Committee on the Judiciary and ordered to be printed, to accompany bill H. R. 3594.]

WAR DEPARTMENT,  
February 13, 1873.

The Secretary of War has the honor to return to the House of Representatives the bill (H. R. 3594) to authorize the Attorney-General to adjust the claim of the Government upon the purchasers of property at Harper's Ferry, and to report to the House, for the information of the Committee on the Judiciary, in reply to letter of said committee of the 7th instant, that the only case now in the hands of the Department of Justice arising out of the sales of lands, buildings, &c., at Harper's Ferry, is that of the purchasers of the water-power, being the largest and most important part of the whole sale.

Touching the merits of the bill, this Department knows no reason why longer time should be given them to consummate their purchase, their notes being now overdue, respectively one and two years, and they and their bondsmen being amply able to consummate the sale at any time.

Suit is understood to be now pending against these parties, and there is no likelihood of disposing of the property to better advantage should this suit be abandoned, and the parties released from their obligations; nor are there equities warranting a compromise with them on the score of price.

The notes and bonds of a large number of small purchasers at the same sale are on file in the office of the Chief of Ordnance, awaiting the disposition that may be made of the case of these principal purchasers. Should they be compelled to fulfill their obligations, it is thought that no difficulty will be had in effecting a settlement with the smaller purchasers within a reasonable time.

UNEXPENDED APPROPRIATIONS FOR NAVAJO INDIANS.

LETTER

FROM THE

SECRETARY OF THE INTERIOR,

TRANSMITTING

*A draught of a bill granting authority to use the unexpended balance from appropriations heretofore made for the subsistence of Navajo Indians to meet deficiencies in the appropriations for the present fiscal year for the benefit of said tribe.*

FEBRUARY 19, 1873.—Referred to the Committee on Appropriations and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
*Washington, D. C., February 14, 1873.*

SIR: I have the honor to inclose herewith a copy of a letter from the Acting Commissioner of Indian Affairs, dated the 12th instant, submitting a draught of a bill "granting authority to use the unexpended balance from appropriations heretofore made for the subsistence of Navajo Indians to meet deficiencies in the appropriation for the present fiscal year for the benefit of said tribe."

The necessity for taking some measures to meet deficiencies in the appropriations for the Indian service is apparent, and I recommend that the inclosed bill be favorably considered by Congress.

I have the honor to be, &c.,

C. DELANO,  
*Secretary.*

Hon. JAMES G. BLAINE,  
*Speaker of the House of Representatives.*

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
*Washington, D. C., February 12, 1873.*

SIR: I have the honor to report that of the amounts appropriated by the act of July 15, 1870, as amended by the act of March 3, 1871,

(Stat., vol. 16, p. 569,) and by the act of May 18, 1872, (Stat., vol. 17, p. 132,) for subsisting the Navajo Indians, there are now on hand unexpended balances amounting to \$54,989.02, which, by the wording of said acts, ceased to be available on the 30th June, 1871, and 30th June, 1872, respectively.

In order to enable the office to meet deficiencies in the appropriation for the present fiscal year for the care and support of said Indians, it is necessary that authority be obtained from Congress to use the balance above referred to, or so much thereof as may be required for the purpose indicated.

With this object in view, I have prepared, and herewith inclose, a draught for a bill embodying the required legislation, and respectfully ask that the same be laid before Congress for the favorable consideration and action of that body.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

The Hon. SECRETARY OF THE INTERIOR.

AN ACT granting authority to use the unexpended balance from appropriations heretofore made for the subsistence of Navajo Indians to meet deficiencies in the appropriation for the present fiscal year for the benefit of said tribe.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior be, and he is hereby, authorized to use, for the care and support of the Navajo Indians in New Mexico, during the year ending June thirty, eighteen hundred and seventy-three, the unexpended balance of appropriations heretofore made for the subsistence of said Indians by the acts of July fifteen, eighteen hundred and seventy, and May eighteen, eighteen hundred and seventy-two, amounting in the aggregate to fifty-four thousand nine hundred and eighty-nine dollars and two cents.*

TREATY OF WASHINGTON RELATIVE TO FISHERIES.

---

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

CALLING

*Attention of Congress to his message of December, 1871, relative to the fisheries by the treaty of Washington.*

---

FEBRUARY 24, 1873.—Ordered to lie on the table and be printed.

---

*To the Senate and House of Representatives :*

In my annual message to Congress at the opening of the second session of the present Congress, in December, 1871, I recommended the legislation necessary on the part of the United States to bring into operation the articles of the treaty of Washington of May 8, 1871, relative to the fisheries, and to other matters touching the relations of the United States toward the British North American possessions, to become operative so soon as the proper legislation should be had on the part of Great Britain and its possessions. That legislation on the part of Great Britain and its possessions had not then been had.

Having, prior to the meeting of Congress in December last, received official information of the consideration by Great Britain and its possessions of the legislation necessary on their part to bring those articles into operation, I communicated that fact to Congress in my annual message at the opening of the present session, and renewed the recommendation for your early adoption of the legislation in the same direction necessary on the part of this Government.

The near approach of the end of the session induces me again to urgently call your attention to the importance of this legislation on the part of Congress.

It will be remembered that the treaty of Washington resulted from an overture on the part of Great Britain to treat with reference to the fisheries on the coast of Her Majesty's possessions in North America, and other questions between them affecting the relations of the United States toward these possessions. To this overture a reply was made on the part of this Government that, while appreciating the importance of a friendly and complete understanding between the two governments

with reference to the subject specially suggested by the British government, it was thought that the removal of the differences growing out of what were generically known as the "Alabama" claims was essential to the restoration of cordial and amicable relations between the two governments, and the assent of this Government to treat on the subject of the fisheries was made dependent on the assent of Great Britain to allow the joint commission, which it had prepared on the questions suggested by that government, to treat also and settle the differences growing out of the "Alabama" claims.

Great Britain assented to this, and the treaty of Washington proposed a settlement of both classes of questions.

Those relating to the Alabama claims and to the Northwestern water boundary, commonly known as the San Juan question, have been disposed of in pursuance of the terms of the treaty.

Those relating to the fisheries were made by the terms of the treaty to depend upon the legislation which the constitutions of the respective governments made necessary to carry those provisions into effect.

Great Britain and her possessions have on their part enacted the necessary legislation.

This Government is now enjoying the advantages of those provisions of the treaty which were the result of the condition of its assent to treat upon the questions which Great Britain had submitted.

The tribunal at Geneva has made an award in favor of the United States on the Alabama claims, and His Majesty the Emperor of Germany has decided in favor of the contention of the United States on the northwestern boundary-line.

I cannot urge too strongly the importance of your early consideration of the legislation that may be necessary on the part of this Government.

In addition to the claim that Great Britain may have upon the good faith of this Government to consider the legislation necessary in connection with the questions which that government presented as the subject of a negotiation which has resulted so favorably to this Government upon the other questions in which the United States felt so much interest, it is of importance that the rights of the American fishermen, as provided for under the treaty, should be determined before the now approaching fishing season opens, and that the serious difficulties to the fishing interests and the grave questions between the two governments that may arise therefrom be averted.

NUMBER OF LETTERS ANNUALLY TRANSMITTED SINCE 1820.

# LETTER

FROM

# THE POSTMASTER GENERAL,

RELATIVE TO

*The number of letters annually transmitted since 1820, with the ratio of postage each year, together with the annual receipts and expenditures of this Department, &c.*

FEBRUARY 19, 1873.—Referred to the Committee on the Post-Office and Post-Roads and ordered to be printed.

POST-OFFICE DEPARTMENT,  
Washington, D. C., February 8, 1873.

SIR: A resolution, adopted by the House of Representatives on the 27th ultimo, requests me to furnish "the number of letters annually transmitted since 1820, with the rates of postage each year, together with the annual receipts and expenditures of the Department; also, to state the effect of reduced rates in increasing the number of letters transmitted, and the ratio of expenses in proportion to the volume of business transacted, as effected by said reduction of rates and increase of business."

In answer to this resolution, I have to state that it is impracticable to furnish the number of letters annually transmitted in the mails. No account of the number has been kept, and the Department is not in possession of any data other than those derived from the annual statements of sales of stamps and stamped envelopes since the establishment of a uniform rate of postage, upon which it could be estimated with a reasonable approximation to accuracy.

The other points of the resolution are substantially answered in a statement furnished by this Department, and presented to the House by the chairman of the Committee on the Post-Office and Post-Roads on the 27th ultimo. It will be found in Mis. Doc. No. 72, of the House of Representatives.

Very respectfully, your obedient servant,

JNO. A. J. CRESWELL,  
Postmaster-General.

Hon. JAMES G. BLAINE,  
Speaker of the House of Representatives.

According to certificate of postmaster at Gollad that the service to Oakville was not suspended in July. Monthly Register that arrival was made on the day succeeding schedule day, and that there is no complaint. Performed by a temporary carrier, by order of contract office, from July 20 to September 30, 1871. Reasons of August 12 and September 11 were unavoidable, and that the railroad company was not blamable. Postmaster persons that there was no failure of the mail December 23, 1870. Cause of the failure on the 8th and 10th of August, 1871. Mail received from the postmaster at Bellville that service was performed on said route in July, (4½ trips.) The postmasters at Greenville and Mercer that the failure to perform more than three times a week service was not forwarded by the postmasters.

SIR: The Chief Signal-Officer of the Army has the honor to report that it is estimated that the appropriation available under the direction of this Office for the expenses of observation and report of storms for the benefit of commerce and agriculture, for the fiscal year ending June 30, 1873, will be wholly exhausted on or before the 28th day of February, 1873.

I am, sir, very respectfully, your obedient servant,

ALBERT J. MYER,

*Brigadier-General, and Chief Signal-Officer of the Army.*

To the honorable the SECRETARY OF WAR.

WAR DEPARTMENT,  
OFFICE OF THE CHIEF SIGNAL-OFFICER,  
DIVISION OF TELEGRAMS AND REPORTS FOR THE  
BENEFIT OF COMMERCE,  
Washington, D. C., February 10, 1873.

GENERAL: I have the honor to report that there remains to my credit as disbursing officer Signal Department, in the hands of the United States Treasurer and assistant treasurer at New York, balances of the appropriation for "expenses of observation and report of storms," &c., for the fiscal year ending June 30, 1873, amounting to twenty-two thousand eight hundred and twenty-six dollars and twenty-one cents, (\$22,826.21,) which sum is not deemed sufficient to meet the demands of the service for the month ending February 28, 1873.

Very respectfully, your obedient servant,

MILITARY HISTORY OF N. R. GRUELLE.

LETTER

FROM

THE SECRETARY OF WAR,

RELATIVE TO

*The military history of N. R. Gruelle, late of the Thirteenth Illinois Volunteers and Sixteenth Illinois Cavalry.*

FEBRUARY 25, 1873.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT,  
February 22, 1873.

The Secretary of War has the honor to reply to the letter of the Committee on Military Affairs of the House of Representatives of the 10th instant, requesting the military history of N. R. Gruelle, late of the Thirteenth Illinois Volunteers and Sixteenth Illinois Cavalry, by stating to the House, for the information of the committee, that it appears from the records of the Adjutant-General's Office that N. Rice Gruelle was enrolled and mustered into service September 15, 1863, as a private in Company I, Sixteenth Illinois Cavalry, for three years; was captured at Jonesville, Virginia, January 3, 1864; was delivered on parole and receipted for at Vicksburgh, Mississippi, April 16, 1865; reported at Benton Barracks, Missouri; and was sent to chief mustering-officer of State for muster out, and was mustered out of service to date May 30, 1865.

His name does not appear on the records of the Thirteenth Illinois Volunteers.

LINCOLN W. TIBBITS.

LETTER

FROM

THE SECRETARY OF WAR,

RELATIVE TO

*The claim of Lincoln W. Tibbits, master and managing-owner of the brig Tornado.*

FEBRUARY 25, 1873.—Referred to the Committee of Claims and ordered to be printed.

WAR DEPARTMENT, *February 21, 1873.*

The Secretary of War has the honor to return to the Committee of Claims, House of Representatives, the inclosed petition and affidavit of Lincoln W. Tibbits, master and managing owner of the brig Tornado, claiming compensation for damages sustained by the seizure by United States Government authorities at New York, of the cargo (powder) of the said brig Tornado, which was referred to this Department on the 22d ultimo by the Committee of Claims, House of Representatives, with the request for such information in regard to the facts alleged in the said petition and affidavit as may be shown by the records, and in reply to state that the property-returns of New York arsenal (now on file in the office of the Second Auditor of the Treasury) do not show that the powder was received at that post in the second or third quarter of 1861, and that this Department can express no opinion upon the merits of the claim as presented.

WM. W. BELKNAP,  
*Secretary of War.*

The SPEAKER of the House of Representatives,  
*Washington.*

STATE, CITY, AND COUNTY OF NEW YORK, ss :

On this 29th day of March, A. D. 1872, before me, William Krebs, a notary public in and for the city and county of New York, duly commissioned and sworn, dwelling in said city, personally appeared Lincoln W. Tibbits, master and managing owner of the brig Tornado, of Westport, Maine, who, being duly sworn, deposes and says: That in Decem-

ber, 1860, deponent was then master and managing owner of the above-named vessel. That said vessel was loaded at that time in this city with a full cargo of powder, destined for the port of New Orleans, consisting of about eight thousand kegs of powder, shipped by private parties in this city and consigned to private parties in New Orleans. That at the period of sailing from New York much political agitation existed, but no overt act of secession or of opposition to the United States Government had actually taken place. That in the due prosecution of the voyage, it chanced, in the providence of God, that said vessel met with terrific gales of wind, during which she became totally dismasted, and was in consequence compelled to bear away for and to put into St. Thomas, where she arrived early in January, 1861. That deponent duly proceeded to repair his vessel, which he did fully in about two months. That during this period, reports of the secession of States reached deponent at St. Thomas, and particularly the State of Louisiana, to which deponent was bound. That the course was open to deponent to sell a portion of his cargo to raise money to pay for his repairs and continue to his destination, whereby he could readily have earned his full freight, and likewise be paid in general average for his detention at St. Thomas. That deponent was well aware that the belligerent condition of the said State made the possession of the cargo a matter of the very highest consequence, and that had he chosen to and so have elected, a correspondence with the consignees would have inevitably led to a consent on their part to any terms of freight and compensation which deponent might choose to dictate and demand. But deponent, actuated, as he solemnly professes, solely by impulses of real patriotism and loyalty to the existing Government, determined that he would under no circumstances proceed to New Orleans, but would return to a northern port with the whole cargo. Deponent, therefore, raised money at a high rate of bottomry, retained every keg of powder in his possession, and returned to New York. That deponent was in much anxiety of mind as to the result of his step, and feared it might involve him and his co-owners in disastrous damages for his non-fulfillment of the bill of lading, and it took much time and delay to come to a conclusion, and it was on the 21st of April when deponent arrived at New York. That on arrival, the United States Government authorities seized the powder, took possession of it, and stored it in its arsenal, and made its own settlement with the shippers thereof. That thus, by the proceedings of deponent and the subsequent action of the Government, this large quantity of war material was kept from the southern authorities at a most critical moment, but in return for deponent's patriotism he was left without compensation of any kind and a dead loss of the use of the vessel and all wages and provisions for a period of six months. That this loss cannot be valued at less than the sum of five thousand dollars, thus entailed upon deponent, for which he feels that the Government should and will now make him good. That the condition of the Government in its finances was such then, and for some years after, that deponent did not present his claim; but now its prosperity, and the dawn of its future grandeur, impel deponent to present and ask for its fair and just consideration and payment.

AGGREGATE PAYMENTS ON PUBLIC DEBT.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

RELATIVE TO

*The aggregate amount paid on the public debt since the 4th day of March, 1861.*

FEBRUARY 25, 1873.— Referred to the Committee of Ways and Means and ordered to be printed.

TREASURY DEPARTMENT,  
*Washington, D. C., February 19, 1873.*

SIR: In compliance with a resolution of the House of Representatives of January 25, 1873, "That the Secretary of the Treasury be, and he is hereby, directed to report to the House the aggregate amount paid on the public debt since the 4th day of March, 1861," I have the honor to state that the principal of the public debt, deducting the cash in the Treasury, from July 1, 1861, to July 1, 1865, was increased in the sum of \$2,587,097,195.96, and that of this amount the sum of \$539,606,162.11 has been paid up to February 1, 1873.

It is believed that this is substantially the information called for by the resolution, although it is not practicable to give it from the 4th March, 1861, for the reason that prior to January, 1870, the public-debt accounts were made up and stated by fiscal years only.

The interest account has not been considered in this connection, which will explain the discrepancy between the figures above given and those represented by the monthly debt statements issued from this Department, in which both principal and interest are included.

I am, very respectfully,

GEO. S. BOUTWELL,

NIGHT-SIGNALS IN THE MERCANTILE MARINE.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

RELATIVE TO

*Night-signals in the mercantile marine of the United States.*

FEBRUARY 25, 1873.—Referred to the Committee on Commerce and ordered to be printed.

TREASURY DEPARTMENT,  
Washington, D. C., February 18, 1873.

SIR: I have the honor to acknowledge the receipt of the following resolution of the House of Representatives, adopted on motion of Mr. Ely:

*Resolved*, That the Secretary be requested to report to this House whether, in his judgment, some general system of night-signals should be established for use in the mercantile marine of the United States.

In reply I have to state that, while such a system might be of great advantage, I do not recommend any legislation upon the subject at present.

The Government will soon publish a book containing the international code of signals used by most maritime nations, the adoption of which code for use on merchant-vessels of the United States I have already recommended to Congress in a letter addressed to the chairman of the Committee on Commerce of the Senate. Until the book shall be fully completed it will be difficult to ascertain whether the adoption of another system might not interfere with the code as prepared for the book.

This Government is also in communication with the government of Great Britain relative to the adoption by both countries of certain signals to be used in the night-time for particular purposes, with which a new system might clash.

As the value of such signals depends in a great measure upon their universality, it seems to me that, without strong reasons, systems not in use by the vessels of all other nations should not be adopted for those of the United States.

The act of April 29, 1864, as amended by the act of February 28, 1871, provides for the use of lights at night for steamships under way, for sailing-ships under way, for steam-tugs, for ships at anchor, for pilot-vessels, for fishing and other vessels, and I do not consider it advisable to interfere with the system, until the improvements already in progress shall have been accomplished.

I am, sir, very respectfully,

GEO. S. BOUTWELL,  
*Secretary.*

FEBRUARY 25, 1873.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT, February 19, 1873.

The Secretary of War has the honor to report to the House of Representatives, for the information of the Committee on Military Affairs, in reply to letter of said committee of the 3d instant, relative to the claim of John Heberer, enrolling officer forty-second subdivision, twelfth congressional district, State of Illinois, that the claimant has never received any pay from the United States for services alleged to have been rendered by him as enrolling officer twelfth district, Illinois. He never received pay for the reason that he never made claim until August 13, 1868, and then payment was refused because the official records failed to verify his claim. (See report of this Department, dated March 8, 1872, transmitted to Military Committee, House of Representatives, March 13, 1872.)

All payments to enrolling officers were made to them by check or draft payable to their order. Said checks or drafts were forwarded through the provost marshal of the district.

GRADE OF OFFICERS IN THE NAVY.

LETTER

FROM

THE SECRETARY OF THE NAVY,

RELATIVE TO

*House bill 3400, to regulate and establish the grade of certain officers in the United States Navy.*

FEBRUARY 25, 1873.—Referred to the Committee on Naval Affairs and ordered to be printed.

NAVY DEPARTMENT,  
Washington, February 20, 1873.

SIR: I have the honor to acknowledge the receipt of a communication from your committee, of date 3d instant, inclosing House bill No. 3400, "to regulate and establish the grade of certain officers in the United States Navy," and asking my opinion of the merits of the same.

The officers of the Navy who seek to be benefited by the passage of the act are those who are placed on the Navy Register under the title of "warrant-officers," being the boatswains, gunners, carpenters, and sail-makers of the service.

They have, on former occasions, made similar appeals to be granted assimilated rank with commissioned officers of the Navy, and an act of Congress, approved the 3d of July, 1864, authorizes the President to give them assimilated rank with masters and ensigns if, in his judgment, it shall be conducive to the interests of the service.

After a full consideration of the act of July 3, 1864, and of the bill now proposed, (H. R. No. 3400,) and consultation with officers of distinguished and long service, I am of the opinion that the interests of the service would be best protected by continuing these warrant officers in the responsible and respectable position which they now hold as regards rank, and by not giving to them the assimilated rank they are now demanding.

They are, during their continuance on the active list of the Navy, liberally provided for in the appropriations for pay of the Navy, with a rate of pay which increases with three years' length of service after date of appointment to after twelve years.

The subject-matter has been, on former occasions, brought to the

notice of, and considered by, the Navy Department. I beg to inclose herewith a copy of the report made to the Secretary of the Navy in February, 1864, by Rear-Admiral Joseph Smith, Chief of the Bureau of Yards and Docks, and Rear-Admiral Charles H. Davis, Chief of the Bureau of Navigation, whom he had appointed to consider a memorial of the warrant-officers of the Navy, setting forth their claim to assimilated rank. This report the Secretary of the Navy transmitted to Congress with his concurrence therein.

I also inclose a memorandum on the subject-matter, made, at my request, by a very experienced and liberal officer of the Navy.

Very respectfully, your obedient servant,

GEO. M. ROBESON,  
*Secretary of the Navy.*

NAVY DEPARTMENT,  
*Washington, D. C., February 2, 1864.*

SIR: In obedience to your order of the 23d ultimo, we have taken into consideration the subject of a letter from the chairman of the Committee on Naval Affairs of the House of Representatives, inclosing a memorial from boatswains and other warrant-officers of the Navy, setting forth their claims to assimilated rank, and we have the honor to report as follows:

The boatswains, gunners, carpenters, and sail-makers of the Navy are a meritorious class of officers, perform important duties, and occupy responsible positions.

But these duties and positions are such as preclude those who hold them from the possibility of having anything like a progressive rank among officers of the line, with whom such progressive rank would bring them into constant conflict.

It may be well to say a word separately of each one of these grades.

The boatswain must be a thorough, practical seaman, but he need not be, and seldom is, a navigator. His duties are limited exclusively to the working and care of rigging, anchors, spars, &c. He already holds a fixed place in the line, and to rank him with an ensign or master would be like ranking an ensign or master with a lieutenant or lieutenant-commander.

The gunner may pass his examination and receive his warrant with less knowledge of seamanship than a boatswain. In the present emergencies of the service, there are many gunners in the Navy who are not seamen. Neither are they navigators, nor are they expected to be competent to take the place and perform the duties required of an ensign or master. Gunners are also, like boatswains, regarded as line-officers, and it may be said of both of these two classes, that to give them a different place in the line from that to which their appropriate duties assign them would be a novel, and, we think, a hazardous departure from naval usage.

The carpenter, though a very useful officer, is not required, as his title implies, to perform duties of a military character such as suggest the idea of military rank.

The sail-makers may be placed in the same category; but since steam

came into general use, a sail-maker is not, like the others, an indispensable officer.

All these four classes of officers are liberally compensated by a progressive pay, which increases according to their term of service. There is no navy in the world in which they are more liberally paid than in ours. We cannot recommend that they should receive any definite rank other than that which they already possess, nor can we recommend that they should receive assimilated rank.

But we have pleasure in recommending that the title "forward," heretofore applied to them, be abolished, and that they be known hereafter by the title of "warrant-officers."

We have the honor to be, sir, very respectfully, your obedient servants,

JOS. SMITH,

*Chief of Bureau of Yards and Docks.*

C. H. DAVIS,

*Chief of Bureau of Navigation.*

Hon. GIDEON WELLES,  
*Secretary of the Navy.*

---

[Memorandum.]

An act approved July 2, 1864, vol. 13, p. 373, authorizes the President to give assimilated rank as ensigns and masters to the warrant-officers of the Navy, if, in his judgment, it shall be conducive to the interest of the service.

The boatswains, gunners, carpenters, and sail-makers of the Navy hold an intermediate position between the petty officers and the commissioned officers. Formerly they were known by the significant title of "forward officers," and were chosen from the most meritorious of our petty officers; a usage unhappily much departed from of late.

The duties of the warrant-officers are not scientific; they require little education, but they demand energy, ability to lead, steadiness, experience, and zeal; qualities best tested by previous service in the fleet.

The boatswains and gunners should be well-trained man-of-war-men; the carpenters and sail-makers skillful mechanics, accustomed to make repairs required by a ship of war at sea or in a foreign port. Since I have been in the Navy the value and efficiency of these officers have not improved. They have grown to look down upon their old duties, they are less ready to lead their crews and share their work, less ready with "calls," or mechanical implement. They are above the duties for which only they were created, leaving those duties to their mates, rendering themselves thereby unnecessary intermediaries in a ship, coming injuriously between executive officers and their own mates, upon whom devolves their proper work. If they be made to rank with masters they will soon (whatever they may say now) claim to mess in the ward-room, removing themselves still further from the enlisted men, and become an incumbrance instead of an advantage to the ships in which they serve. I have no hesitation in urging that I should then prefer to dispense altogether with their services, and rely wholly upon their mates.

It is necessary that we should make the naval service attractive to enlisted men, and to induce good men to enlist, it is of much importance that no warrant-officer should be appointed who has not served a certain number of years as a petty officer in our Navy.

When thus appointed they should be well paid, treated with much respect, very comfortably quartered, and well provided for as to pensions.

The attempt to increase their rank a few years ago, and to give them the insignia of a higher grade, did not add to their respectability, (for that depended upon their usefulness,) but it rendered them greatly dissatisfied with their duties, made them lukewarm leaders of their men, and impatient of their necessarily subordinate positions.

In my humble judgment, it would be very subversive of the interests of the service to give these warrant-officers the assimilated rank they demand. It might, however, not be amiss to retire them, at the age of sixty-two years, with the rank and pay of masters, after a long career of honorable and useful service of not less than thirty years, fairly attested by certificates from their commanding officers.

Respectfully submitted.

C. R. P. RODGERS,  
*Commodore, United States Navy.*

COST OF LINES OF TELEGRAPH CONNECTING MILITARY POSTS.

LETTER

FROM

THE SECRETARY OF WAR,

RELATIVE TO

*The probable cost of the construction and operation of telegraph-lines connecting the military posts, and from post to post, on the frontiers of Texas.*

FEBRUARY 25, 1873.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT,  
February 17, 1873.

The Secretary of War has the honor to submit to the House of Representatives, in compliance with the request of the Committee on Military Affairs therefor, a report from the Chief Signal-Officer upon the probable cost of the construction and operation of telegraph-lines connecting the military posts, and from post to post, on the frontiers of Texas, with the headquarters at San Antonio, as contemplated in House bill 3767, herewith returned.

WM. W. BELKNAP,  
*Secretary of War.*

WAR DEPARTMENT,  
OFFICE OF THE CHIEF SIGNAL-OFFICER,  
DIVISION OF TELEGRAMS AND REPORTS FOR THE  
BENEFIT OF COMMERCE AND AGRICULTURE,  
Washington, D. C., February 14, 1873.

SIR: The Chief Signal-Officer of the Army has the honor to make the following report upon the papers herewith returned, and with special reference to a required estimate of the cost of the construction and operation of telegraph-lines connecting the military posts, and from post to post, on the frontier of Texas with the headquarters at San Antonio, as contemplated in bill H. R. No. 3767, introduced February 3, 1873, and referred to the Committee on Military Affairs of the House of Representatives.

From information obtained at the War Department it would appear that the posts referred to are those named below, and that their connec-

tion with San Antonio should be as specified, viz: First, by a line extending from San Antonio connecting Forts McKavett, Concho, Griffin, Richardson, and Sill; second, by a line from San Antonio connecting Forts Clark, Stockton, Davis, Quitman, and Bliss, with branch line from Fort Clark to Fort Duncan; third, by a line from San Antonio, connecting Forts McIntosh, Ringgold barracks, and Fort Brown.

The length of these three lines centering at San Antonio is estimated at 1,483 miles. The general rule for the cost of construction of telegraph-lines of one wire only, on land, is \$125 per mile, but as it is probable that over much of the proposed routes the timber must be hauled for a long distance, a higher estimate should be made. That cannot, however, be given without a longer time than is now allowed for the purpose of this report, and more complete information on the subject than is attainable at once in Washington. At the rate of \$125 per mile, the cost of construction for one wire would be \$175,375 for the proposed lines. The cost of one additional wire is estimated at \$40 per mile, and would greatly add to the value of the lines. This for the three above lines would add \$59,320 to the cost. Should there be hesitation about the appropriation of the whole of the amount as above estimated, it is suggested that a smaller sum—for instance \$50,000—might be inserted in the bill, with a view of commencing the work between the most important points.

As the cost of these lines will vary perhaps 100 per cent., according to the mode of construction and the plans which may be adopted for construction and repairs, maintenance and operation, it is recommended that a provision be added to the bill that the lines shall be constructed, maintained, and worked according to the plans and under the immediate control of the Chief Signal-Officer of the Army, subject to the direction of the Secretary of War.

It is also, by all means, to be recommended that in any use of any lines to be erected by the United States, the accurate and regular transmission of the signal-service reports should be provided for by law as well as all other telegraphic communications of the War Department. This in view of any possible leases or sales of the lines at such times as it may be found necessary to abandon the posts.

I am, sir, very respectfully, your obedient servant,

ALBERT J. MEYER,

*Brigadier-General and Chief Signal-Officer of the Army.*

A BILL to authorize the Secretary of War to construct and operate telegraph-lines connecting the military posts, and from post to post, on the frontiers of Texas, with the headquarters at San Antonio.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of War be, and he is hereby, authorized and directed to construct, equip, and operate telegraph-lines connecting by telegraphic communication the military posts, and from post to post, on the frontiers of Texas, with the headquarters of that department at San Antonio; and for that purpose the sum of ——— thousand dollars, or so much thereof as may be found necessary, is hereby appropriated, out of any money in the Treasury not otherwise appropriated.

RELATIVE TO

*The claim of José A. Baca for depredations committed in August, 1868, by Kiowa and Comanche Indians.*

FEBRUARY 25, 1873.—Referred to the Committee on Indian Affairs and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
*Washington City, February 21, 1873.*

SIR: In compliance with the terms of the seventh section of the act approved May 29, 1872, entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian tribes, for the year ending June 30, 1873, and for other purposes," I have the honor to transmit herewith the claim of José A. Baca and Romaldo Baca for compensation on account of depredations committed by Kiowa and Comanche Indians.

A letter, (copy inclosed,) dated the 15th day of February, 1873, from the Commissioner of Indian Affairs, reporting the nature, character, and amount of said claim, is accompanied by the evidence presented in support thereof, and shows the action taken by that officer, under the rules and regulations prescribed by this Department for the investigation of such claims; all of which is respectfully submitted for the consideration of Congress, as contemplated by said seventh section of the act aforesaid.

Very respectfully, your obedient servant,

C. DELANO,  
*Secretary.*

*The Hon. SPEAKER of the House of Representatives.*

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
*Washington, D. C., February 15, 1873.*

SIR: I have the honor to submit herewith, for the action of the Department, a claim of José A. Baca and Romaldo Baca, citizens of New

Mexico, for \$2,745, being the value of sixty-one head of oxen, at \$45 each, charged to have been stolen from their trains at Lower Cimarron Springs, on the 26th of August, 1868, by Comanche Indians.

The evidence adduced is deemed sufficient to justify a favorable consideration of the claim. Of the sixty-one head of oxen, twenty-five were taken from the train of José A. Baca and thirty-six from that of Romaldo Baca. Claimants, at the time of the outrage, were on their way to the States for the purpose of freighting goods, and the cattle were doubtless drawing their wagons. If they were work-oxen, and such is the presumption, the value fixed upon the animals is reasonable. It is estimated that a yoke of work-oxen is worth from \$75 to \$100. It is therefore recommended that this claim be allowed in full.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

## *Petition.*

UNITED STATES OF AMERICA.

*Territory of New Mexico, County of San Miguel :*

*To the honorable agent and superintendent of the Kiowa and Comanche tribes of Indians :*

Your petitioners, José A. Baca and Romaldo Baca, residents of Las Vegas, New Mexico, and loyal citizens of the United States, would respectfully state to you that, on the 26th day of August, 1868, their train was attacked at the Lower Cimarron Springs, in the Territory of New Mexico, in the day-time, by between seventy-five and eighty Kiowa and Comanche Indians, then at amity with the United States; twenty-five of the oxen of the said José A. Baca, of the value of \$45 each, and thirty-six oxen of the said Romaldo Baca, of the value of \$45 per head, were taken, stolen, robbed, and driven away by said Indians. Your petitioners further state that two of the wagoners were killed by the Indians, but the courage of the men, after fighting all day, prevailed, and said Indians were prevented from capturing any of the said oxen, except as above stated. Your petitioners would further state that they have never recaptured from said Indians any of said oxen, nor obtained from any source payment or satisfaction for said loss, nor have they in person, or by agent, or by attorney, in any manner sought or attempted to obtain any private satisfaction or revenge from said Kiowa and Comanche Indians, for or on account of said loss of property. Your petitioners would further state that no cause or provocation of any kind was given to said Indians to induce said attack, as said petitioners were peacefully traveling with their train of wagons, as licensed freighters, from their home in Las Vegas, along the public and national highway leading from Santa Fé, New Mexico, to Kansas City, in the State of Missouri. Your petitioners herewith present the proof of said robbery and loss, and ask that such steps be taken in the premises, in accordance with the acts of Congress in such cases made and provided, as will procure indemnity for said loss out of the annuities of said Indians, due and owing to said Kiowa and Comanche Indians, under treaty stipulations with the United States.

All of which is respectfully submitted.

We, Francisco Gallegos, a resident of Los Vegas, and Rafael Ortiz y Chavis, a resident of Mora, in the Territory of New Mexico, upon our oath state that we are well acquainted with José Albino Baca and Romaldo Baca, and know them to be loyal citizens of the United States. We further state that, on the 26th day of August, 1868, at the Lower Cimarron Springs, in the Territory of New Mexico, a party of Kiowa and Comanche Indians, then at amity with the United States, numbering from seventy-five to eighty Indians, in the day-time attacked the train of said José Albino Baca and Romaldo Baca, then on its way to the States, under our charge as wagon-masters, and said Indians stole, took, and drove away twenty-five oxen, of the value of \$45 each, belonging to José Albino Baca, and thirty-six oxen, of the value of \$45 each, belonging to Romaldo Baca. We further state that in said fight two of the party were killed by the Indians, one American and one Mexican, and the capture of said oxen could not be prevented on account of the superior force and number of said Indians. We further state that no cause whatever or provocation was given to said Indians, and said capture of said oxen and killing of said two men was a premeditated and deliberate robbery and murder by said Indians. We further state that said train of José Albino Baca was on the road to the States, under the charge of this affiant, Rafael Ortiz y Chaves, as wagon-master, and the train of Romaldo Baca was under the charge of Francisco Gallegos, as wagon-master, said Bacas being licensed freighters going to the States for a return cargo of goods, wares, and merchandise. We further state that none of said cattle were recaptured from said Indians, nor was any payment or satisfaction made by said Indians for said loss, nor did the said José Albino Baca or Romaldo Baca, in person or by agent or attorney, seek or attempt to obtain any private satisfaction or revenge from said tribes of Indians for or on account of said loss of property. We further state that we were present at the time of said robbery, and know the above facts to be true; and that we have no interest whatever in the above claim; and further say not.

*Washington, D. C., February 15, 1873.*

SIR: I have the honor to submit for the action of the Department, a claim of Cyrus M. Cutler for \$150, the value of a cow belonging to him, killed by a party of Kaw Indians, who were encamped for some time a few miles distant from his farm.

The allegation is thought to be sustained by the testimony adduced. Upon the case being presented to the Indians in council, by United States Agent E. L. Stover, they acknowledged that the cow was killed near their camp, not, however, by their people, but by Omaha Indians. Agent Stover is of the opinion that the Kaws assisted the Omahas in the act, and he thinks \$100 would be a fair price for the cow. It is recommended that claimant be allowed \$75 as a full indemnity for his loss.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

Hon. C. DELANO,  
*Secretary of the Interior.*

KAW INDIAN AGENCY,  
*Council Grove, Kansas, July 8, 1869.*

SIR: I have the honor to transmit herewith the claim of Cyrus M. Cutler against the Kaw tribe of Indians for the alleged killing of one Durham cow, in the winter of 1867, and to inform you that I have submitted the claim to the Kaw Indians, in general council assembled, as provided by law, and that they acknowledge that the cow was killed near their camp, but claim that it was done by a party of Omaha Indians who were camped with them at the time. They refuse to allow any satisfaction, and claim that the Omahas should pay the damages.

The evidence in the case appears to be conclusive, and from the admissions of the Indians I am of the opinion that they assisted in the killing and eating of said cow, and should assist in paying for her, though I think the price charged much too high. One hundred dollars is considered a fair price for a good Durham cow in this country, though this may have been an extra one.

Very respectfully, your obedient servant,

E. L. STOVER,  
*United States Indian Agent.*

LETTER

FROM THE

SECRETARY OF THE INTERIOR,

RELATIVE TO

*The claim of M. Desmarais & Co. for depredations committed by Cheyenne Indians.*

FEBRUARY 25, 1873.—Referred to the Committee of Claims and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
*Washington City, February 21, 1873.*

SIR: In compliance with the terms of the seventh section of the act approved May 29, 1872, entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian tribes for the year ending June 30, 1873, and for other purposes," I have the honor to transmit herewith the claim of M. Desmarais & Co. for compensation on account of depredations committed by Cheyenne Indians.

A letter (copy inclosed) dated the 15th day of February, 1873, from the Commissioner of Indian Affairs, reporting the nature, character, and amount of said claim, is accompanied by the evidence presented in support thereof, and shows the action taken by that officer, under the rules and regulations prescribed by this Department for the investigation of such claims; all which is respectfully submitted for the consideration of Congress, as contemplated by said seventh section of the act aforesaid.

Very respectfully, your obedient servant,

C. DELANO,  
*Secretary.*

The Hon. the SPEAKER of the House of Representatives.

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
*Washington D. C., February 15, 1873.*

SIR: I have the honor to submit herewith, for the action of the Department, a claim of M. Desmarais & Co. for \$19,050, on account of a depredation alleged to have been committed by Cheyenne Indians.

From the evidence adduced, it appears that claimants' train of wagons, loaded with about fifty thousand pounds of goods, and drawn by sixty-seven mules, was attacked at "Pawnee Forts," Kansas, on the 19th August, 1868, by an irresistible force of Cheyennes; that the same Indians then and there stole from the claimants twenty of their mules, valued at \$250, and forty-seven others, valued at \$175; also two horses—one valued at \$200, and the other at \$125. It further appears that, in consequence of the loss of their mules, the claimants were put to an expense of \$3,000 (being 6 cents per pound on the fifty thousand pounds of freight referred to) in procuring oxen to transport the wagons and goods in question, from the point at which the attack was made to Las Vegas, New Mexico, their place of destination; and moreover they had to pay thirteen men to guard the property during the delay necessarily incurred awaiting the arrival of the oxen, wages and board, at \$50 each per month for two months; and also to pay a wagon-master for the same time, \$250. The claimants also say that, because of the delay so caused, the value of the goods on arrival at Las Vegas was "diminished" to at least the sum of \$1,000. These losses and damages make up the sum of \$19,050.

The allegations in the case are thought to be sustained by the proofs submitted. United States Agent Darlington reports on the [1st February, 1872, (a copy of his report is herewith,) that the matter of the claim was carefully explained to the Cheyennes in council, and that they "acknowledged to have committed the depredation therein set forth."

This Office recommends that the claim be allowed in the sum of \$10,250, by estimating the value of the sixty-seven mules at \$150 each, and the two horses at \$100 each, and rejecting the charges, which, being in the nature of consequential damages, are deemed inadmissible.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

Hon. C. DELANO,  
*Secretary of the Interior.*

#### CLAIM OF DESMARAIS AND BERNARD.

##### *Petition.*

UNITED STATES OF AMERICA,  
*Territory of New Mexico, County of San Miguel.*

*To the Superintendent of Indian Affairs for the Cheyenne Indians, or the agent of said tribe of Indians.*

Your petitioners, Miguel Desmarais and Joab M. Bernard, loyal citizens of the United States, residents of the town of Las Vegas, in the County of San Miguel, Territory of New Mexico, and partners in mercantile business in the said town of Las Vegas, under the name and style of M. Desmarais & Co., would respectfully state that in the summer of 1868 they purchased in the States a large stock of goods, wares, and merchandise for their store in Las Vegas, and were transporting said goods from Kansas City to Las Vegas, New Mexico, a distance of about seven hundred and seventy-five miles, in nine wagons, containing about 50,000 pounds of goods, and drawn by sixty-seven mules, belonging to your petitioners. Your petitioners would further state that after arriving at a point on the Arkansas River in the State of Kansas, called Pawnee Forts, distant from Las Vegas about three hundred and fifty miles, their said train was, in the day-time, attacked by a party of Cheyenne Indians under the leadership of a chief of said tribe called "Lame Wolf." Said Indians making said attack, and in sight at the time, numbered over one thousand Indians. Your petitioners would further state that said tribe of Indians were then at amity with the United States, and on the 19th day of August, 1868, said party of Cheyenne Indians took, stole, robbed, and carried away of the property of said petitioners.

twenty mules of the value of \$250 per head, forty-seven mules of the value of \$175 each, one horse of the value of \$200, and one other horse of the value of \$125, making in all the sum of \$13,550 so taken and carried away by said Indians. Your petitioners would further state that at the time said property was stolen and robbed from them by said Indians, said wagons were being lawfully and peacefully transported along the public highway between Kansas City and Santa Fé, New Mexico, and no cause was given to said Indians to commit said robbery. The said robbery of said property was committed by the superior and irresistible force of said Indians in spite of all due care taken by the said petitioners to prevent it. Your petitioners would further state that they have never been able to recapture or obtain from said Indians any of said mules or horses, nor has ever from any source received any payment or satisfaction for said property so lost. Your petitioners would further state that they have never, either in person or by agent or by attorney, sought or attempted to obtain any private satisfaction or revenge from said tribe of Indians for or on account of said loss of property. Your petitioners would further state that by means of the said capture of their said train of mules they were put to great expense in procuring the transportation of said wagons, having to delay some two months and send over three hundred miles for oxen to transport said wagons with the goods, and at a cost of six cents per pound, which on the said number of 50,000 pounds amounts to the sum of \$3,000. Your petitioners would further state that they had, during said delay, thirteen men in their employ to guard said goods and wagons, at a cost of \$50 each per month for wages and board, which, for the two months, amounted to the sum of \$1,300, and one wagon-master at wages of \$100 per month and board worth \$25 per month, which for the two months' delay caused an expenditure of \$250, making an actual expense additional, resulting from said loss of said mules, amounting to the sum of \$4,550 without regard to the diminished value of the goods on arrival at Las Vegas, arising solely for and on account of said delay, which your petitioners aver amounted to at least the sum of \$1,000. Your petitioners ask that such steps be taken in the premises as will enforce payment for the property so lost and the damages so sustained out of the annuities of said Indians as is promised by the laws of Congress relating to said subject under the treaty with said Indians.

All of which is respectfully submitted.

MIGUEL DESMARAIS.  
JOAB M. BERNARD.

TERRITORY OF NEW MEXICO, *County of San Miguel:*

We, the said Miguel Desmarais and Joab M. Bernard, upon our oath, state that the matters and things in the above petition contained, so far as stated from our own knowledge, are true in substance and in fact; and so far as stated from the information of others, they believe them to be true.

DEMETRIO PEREZ,  
*Clerk of the Probate Court, County of San Miguel.*

UNITED STATES OF AMERICA,  
*Territory of New Mexico, County of San Miguel:*

We, Charles Blanchard and George Maxwell, residents of the town of Las Vegas, New Mexico, upon our oath state, that we are well acquainted with Miguel Desmarais and Joab M. Bernard, loyal citizens of the United States, residents in Las Vegas, New Mexico, and doing business as merchants, under the name and style of M. Desmarais & Co. We further state that we were along with the train of nine mule-wagons, belonging to said Desmarais & Bernard, on the 19th day of August, 1868, when said train was attacked by the Cheyenne Indians, under their captain, "Lame Wolf," at a point on the road to Santa Fé from Kansas City, called Pawnee Forks, on the Arkansas River, in the State of Kansas, about four hundred miles distant from Kansas, and over three hundred miles distant from Las Vegas, New Mexico, the destination of said train. Said affiants state that said attack was made in the day-time, and by about twelve Indians, who ran into the herd of mules and horses, and stampeded and drove them away; and within sight and in aid of said Indians there were Cheyenne Indians, to the number of over one thousand, ready to aid and assist said Indians in said robbery, and to prevent a recapture of said property. Said affiants further state, that at the time and place aforesaid said Cheyenne Indians, then at amity with the United States, took, stole, robbed, and drove away, of the property of said Desmarais & Bernard, twenty mules, of the value of \$250 each, and forty-seven head of mules, of the value of \$175 per head; one horse, of the value of \$200, and one horse of the value of \$125. Said affiants further state, that they know said Indians were of the tribe called Cheyennes, for they had

been for several days previous at their camp and along with said train, and had been treated with great kindness and hospitality by the said train of Desmarais & Bernard. Said affiants further state that it was impossible to prevent said robbery, or recapture from said Indians said property, on account of the number of said Indians, and the danger to the lives of the whole party which would have resulted from any effort forcibly to recapture said mules; and said Indians being well mounted, and the party in charge of said train being on foot, any attempt at the recapture of said property would have been useless. We further state that said train was delayed for two months before other animals could be obtained to transport said goods to their destination, and that the wages and board of thirteen men engaged in guarding said goods and waiting for other transportation for said wagons was worth \$50 per month, and the wages and board of one wagon-master was worth \$125 per month; and said fifteen men remained so employed, at such cost, for two months. We further state that it was worth and cost not less than six cents per pound to procure other animals and transport said wagons and goods to their destination, there being nine wagons and 50,000 pounds of goods, wares, and merchandise. We further state that we are familiar with prices of goods in New Mexico, and the importance of the early arrival of goods to secure a ready and profitable sale, and we state that the loss in the value and sale of said goods, on account of said detention, could not have been reasonably less than \$1,000. We further state that we are well acquainted with the value of said mules at the time and place when stolen, and their value was as above stated. We further state that none of said animals were recaptured, nor has any payment or satisfaction ever been made to said Desmarais & Bernard for said property, nor have they sought or attempted to obtain from said Indians any private satisfaction or revenge for or on account of said loss of property. And we further state that we have no interest in this claim whatever; but being along with said train at the time, and knowing the facts to be as above set forth, we state them under oath, in order that the Government of the United States may have a proper foundation on which to compel said Indians to make indemnity for said loss; and further we say not.

L E T T E R

FROM

THE SECRETARY OF THE INTERIOR,

RELATIVE TO

*The claim of Probst and Kirchner for depredations, in 1869, by Navajo Indians.*

FEBRUARY 25, 1873.—Referred to the Committee of Claims and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
*Washington City, February 21, 1873.*

SIR: In compliance with the terms of the seventh section of the act approved May 29, 1872, entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian titles, for the year ending June 30, 1873, and for other purposes," I have the honor to transmit herewith the claim of Probst and Kirchner for compensation on account of depredations committed by Navajo Indians.

A letter (copy inclosed) dated the 17th day of February, 1873, from the Commissioner of Indian Affairs, reporting the nature, character, and amount of said claim, is accompanied by the evidence presented in support thereof, and shows the action taken by that officer, under the rules and regulations prescribed by this Department for the investigation of such claims; all which is respectfully submitted for the consideration of Congress, as contemplated by said seventh section of the act aforesaid.

Very respectfully, your obedient servant,

C. DELANO,  
*Secretary.*

The Hon. SPEAKER of the House of Representatives.

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
*Washington, D. C., February 17, 1873.*

SIR: This Office on the 21st May, 1870, reported to the Department a claim of Probst and Kirchner, on account of a depredation alleged to

have been committed upon their property by Navajo Indians, in December, 1869. On the 14th June, 1870, the claim was returned by the Department to this Office, with directions that the agent for the Navajos be instructed to further investigate the matter, and report the result of said investigation, in order that the Department may decide the case without detriment to the rights or interests of the claimants or the Indians.

I have now the honor to submit the claim with a further report from the agent of the Navajos under date of August 31, 1870. The Navajos in council have again asserted that they know nothing and can learn nothing concerning the depredations.

The claim is for \$2,800, the value of seventy head of beef-cattle, valued at \$40 each, which were driven off from the herd of claimants on the 9th December, 1869, at a point about five leagues from Tierra Amarilla, New Mexico Territory.

This Office, in its report above referred to, expressed the opinion that the fact of the depredation appeared to be sustained, but that evidence was insufficient as to the cattle being worth \$40 per head, and now would express further opinion that, if it be assumed that the claimants lost precisely the number of cattle stated, for it may be questioned that they did lose seventy head, as the affiants in the case do not say that they knew their herd to consist of a definite number, nor that a count of the same was made after the depredation which showed the difference to be seventy, the claimants would be fully indemnified for their loss by the payment of \$1,400, or \$20 per head for said cattle, and it is recommended that the claim be allowed for this amount.

Very respectfully, your obedient servant,

H. R. CLUM,

CLAIM OF PROBST AND KIRCHNER.

TERRITORY OF NEW MEXICO,  
*County of Santa Fé:*

*To the Hon. William Clinton, Superintendent of Indian Affairs for the Territory of New Mexico :*

Your petitioners, Charles Probst and August Kirchner, loyal citizens of the United States of America, residents of the city and county of Santa Fé, Territory of New Mexico, would respectfully state to you that, on the 9th day of December, A. D. 1869, at a place called and known as El Bado de Abajo, about five leagues from Tierra Amarilla, in the county of Rio Arriba, Territory aforesaid, between 2 and 3 o'clock in the afternoon of said day, a party of Navajo Indians, numbering about seventeen, belonging to the Navajo tribe, then at amity with the United States, made an attack upon the herd of beef-cattle belonging to your petitioners, and took and run off seventy head of said cattle, averaging from five to six years old, of the value of \$40 per head, making the sum of \$2,800; and that, in consequence of the small number of herders and the great distance to the nearest settlement where aid

could be procured, it was impossible to prevent said robbery or to recapture said stock.

Your petitioners would further state that they have never recaptured any of the said cattle, nor received from any source whatsoever any payment or indemnity for the same. Nor have your petitioners, in person or by their agent or attorney, sought or attempted to obtain any private revenge or satisfaction from said Indians for or on account of said loss of said property.

Your petitioners herewith furnish the proof in support of the facts stated herein, and ask that payment for said property be made to them out of the annuities or gratifications due, or to become due, or payable to said Indians by the Government of the United States, in conformity with the acts of Congress, in such cases made and provided, relative to property stolen from citizens of the United States by Indians at peace with the Government.

Your petitioners would further state that they are under a contract with chief commissary of New Mexico to supply the post or troops at Santa Fé with beef, and have executed heavy bonds for the filling of said contract, and in order to comply therewith it is necessary to keep on hand a good supply of fine, merchantable beef-cattle.

D. 1869, between the hours of 2 and 3 of the afternoon of said day, at a place called and known as El Bado de Abajo, about five leagues from Tierra Amarilla, in the county of Rio Arriba, Territory aforesaid, a party of about seventeen Navajo Indians attacked a herd of beef-cattle of the said Charles Probst and August Kirchner, and run off seventy head of said cattle; that said cattle were worth at that time, to the best of their judgment and belief, \$40 per head; that said Indians were seen by said affiants at the time they made the attack upon said herd of cattle; and that

they saw them run off said stock; that they followed said Indians for about two leagues, and know them to be Navajo Indians; and that they were then at amity with the United States; and that said affiants had not mistreated said Indians, or given them any cause for committing such outrage. Said affiants further state that, on account of the great number of said Indians, and the small number of herders having charge of said cattle, said robbery could not be prevented, nor said property be recaptured. Said affiants further state that they have no interest, directly or indirectly, in the above claim or in the final result thereof, and only state the facts as they know them to be.

UNITED STATES NAVAJO INDIAN AGENCY,  
*Fort Defiance, New Mexico, April 26, 1870.*

Respectfully returned to Major William Clinton, United States Army, superintendent of Indian affairs, Territory of New Mexico, Santa Fé, New Mexico, with the information that I have called a council of the principal chiefs and head-men of the Navajo Indians, and carefully examined them, and had them make inquiry of their people in regard to the within claim. They say they know nothing, nor can they learn anything in regard to the claim. I have no other means of getting information here.

SETH E. WARD.

LETTER

FROM THE

SECRETARY OF THE INTERIOR,

RELATIVE TO

*The claim of Seth E. Ward for compensation on account of depredations committed by Brulé and Ogallala Sioux Indians.*

FEBRUARY 25, 1873.—Referred to the Committee of Claims and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
Washington, D. C., February 18, 1873.

SIR: In compliance with the terms of the seventh section of the act approved May 29, 1872, entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian tribes, for the year ending June 30, 1873, and for other purposes," I have the honor to transmit, herewith, the claim of Seth E. Ward for compensation on account of depredations committed by Brulé and Ogallala Sioux Indians in 1865-'6.

A letter, (copy inclosed,) dated the 27th day of January, 1873, from the Acting Commissioner of Indian Affairs, reporting the nature, character, and amount of said claim, is accompanied by the evidence presented in support thereof, and shows the action taken by that officer, under the rules and regulations prescribed by this Department for the investigation of such claims; all which is respectfully submitted for the consideration of Congress, as contemplated by said seventh section of the act aforesaid.

Very respectfully, your obedient servant,

C. DELANO,  
Secretary.

Hon. JAMES G. BLAINE,  
Speaker of the House of Representatives.

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
Washington, D. C., January 27, 1873.

SIR: I have the honor to submit herewith, for your decision and action two claims of Seth E. Ward, on account of depredations alleged to have

been committed by Sioux Indians in 1865 and 1866, amounting in the aggregate to \$79,250.

The evidence produced, so far as respects the fact of the depredations, together with the acknowledgments of the Indians, by their chiefs in open council, that the allegations are true, are deemed sufficient, in the judgment of this office, to justify a favorable consideration of the claims. Without undertaking to determine what were the losses actually sustained by the claimant, this office would, nevertheless, express the opinion that the gross amount of the claims might justly be reduced by assuming the value of the mules and cattle fixed by the claimant to be excessive, and by placing them lower; and further, by rejecting the charge or consequential damages, in accordance with a prevailing rule of the Department heretofore applied in such cases. It is suggested that \$150 each for the one hundred and fifty-nine mules, less the one found in the search for the animals, and \$50 each for the forty-eight head of cattle, \$100 for the bell-mare, and \$100 each for the twenty-one horses, be adjudged to be fair and reasonable prices for the same, and that the claim for damages be deemed inadmissible.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

Hon. C. DELANO,  
*Secretary of the Interior.*

*Petition of Seth E. Ward.*

In the matter or the claim of Seth E. Ward against the Government of the United States, for the loss of stock taken by the Brulé band of Sioux Indians.

*To Vital Jarrot, Indian agent of the Upper Platte Agency, in Dakota Territory :*

Your petitioner, Seth E. Ward, respectfully represents that he has been post-sutler at Fort Laramie for about ten years now last past, and that on or about the 9th day of November, A. D. 1865, your petitioner started from Nebraska City, in the Territory of Nebraska, a train of twenty-five wagons, with one hundred and sixty mules and one bell-mare, in charge of a wagon-master and thirty additional men; that said wagons were loaded with goods, wares, and merchandise of the value of \$60,000, to be carried to the said sutler's store at the military post of said Fort Laramie.

And your petitioner would further state that he is informed and believes, and so charges the fact to be, that the said train proceeded on its way toward said Fort Laramie until it arrived at or near Alkali Station, in the Territory of Nebraska, without the loss of any of the stock except one mule killed before reaching said Alkali Station; that said mule-train arrived at said Alkali Station, about two hundred and twenty-five miles distant from said Fort Laramie, on the 1st day of December, A. D. 1865; and was, as your petitioner is informed and believes, detained by the military authorities at said Alkali Station, or near the same, until the night of the 2d day of December, in the year last aforesaid, at which time a part of the Brulé band of Sioux Indians came to where said train was camped for the night, and took and drove away one hundred and fifty-nine mules and the said bell-mare, the same being all the stock with your petitioner's train. That the said mules were all large, fine mules, which had been selected by your petitioner with great care, and were worth at least \$300 per head; and that the said bell-mare was worth about \$150. And your petitioner further says that by reason of the said Indians taking the stock as aforesaid, the said wagons and loading were necessarily detained at said Alkali Station from the said 2d day of December, A. D. 1865, until the 29th of the same month, at which time your petitioner, by diligent effort, succeeded in bringing an ox-train from said Fort Laramie, with an additional force of a wagon-master and thirty men, to remove said goods and wagons to their destination at said Fort Laramie. And your petitioner further says, that he lost out of the said ox-train, in going to and removing said goods and wagons, twenty-seven head of oxen of large size and good quality, and of the value of \$200 per yoke, and that said cattle perished on said trip in conse-

quence of the severity of the weather. And your petitioner further says that he had to pay the said thirty extra men so brought with said ox-train from Fort Laramie at the rate of \$50 per month, except the wagon-master, who was paid at the rate of \$100 per month; and that said amounts so paid was but a fair compensation to the men for the labor performed, and that sixty days were necessarily occupied in making the trip with said ox-train and transporting said wagons and goods to Fort Laramie. Your petitioner further represents that he has, by reason of the said Indians taking said stock as aforesaid, sustained damages, in addition to the value of the said mules and mare, by loss of cattle and paying extra men as aforesaid other necessary expenses and delay of goods, in at least the sum of \$23,000. And your petitioner further says that the said Indians appropriated the said mare and mules to their own use, and that said property is a total loss to your petitioner. That your petitioner has never sought or obtained any private revenge against the said Indians for taking said property, nor attempted to punish them therefor. Nor has your petitioner ever received from said Indians or from any other source any compensation for his said losses, or for any part thereof. Your petitioner, therefore, asks the several sums herein stated be allowed and paid by the United States to your petitioner, and request that you forward this statement and accompanying proofs through the regular channel to the proper Department for adjustment and allowance, and accompany the same with such statements as you may deem it your duty to make in the premises.

TERRITORY OF DAKOTA, *Fort Laramie, ss :*

Seth E. Ward, being first duly sworn, on oath deposeth and saith that he is the petitioner above named, and that the matter and things set forth in the foregoing petition by him signed are true in substance and in fact.

SETH E. WARD.

Sworn to and subscribed before me this 24th day of June, A. D. 1866.

VITAL JARROT,

THE UNITED STATES GOVERNMENT,

TO SETH E. WARD,

	Dr.
For 159 large mules, at \$300.....	\$47,700
For 1 bell-mare .....	150
For the cost of transporting 150,000 pounds merchandise during the months of December and January, 1865 and 1866, from Alkali Station to Fort Laramie, two hundred and twenty-five miles, at 12 cents per pound .....	18,000
Damages to groceries by detention and freezing.....	5,000
	<hr/> 70,850 <hr/>

Is the matter of the claim of Seth E. Ward against the United States Government for the loss of stock taken by the Brulé band of Sioux Indians, near Alkali Station, Nebraska Territory.

TERRITORY OF DAKOTA, *Fort Laramie, ss :*

Seth E. Ward, being first duly sworn according to law, on oath deposeth and saith that he is the sutler at the post of Fort Laramie, and that while peaceably engaged in transporting goods and merchandise to said fort, in the months of November and December, A. D. 1865, his train, consisting of twenty-five wagons drawn by one hundred and sixty mules, under the care and superintendence of Edgar F. Bruce, when arriving at a military post known as Alkali Station, was stopped and detained there by the military commander; that while detained there by military authority, to wit, in the night of the 2d day of December, A. D. 1865, a party of Brulé Sioux Indians, in spite of due diligence and care of his men, rushed upon, drove, stole, and carried away one hundred and fifty-nine mules, of the value of \$300 each, and one bell-mare of the value of \$150, the property of Seth E. Ward. This affiant further saith that said Ward has never received indemnification for said loss, either from the Indians or any other source, nor has he ever sought private satisfaction in revengeful acts on said Indians; but makes this application to the Government of the United States, in conformity with the law for such cases made and provided, for the recovery of \$47,850, being the actual value of the animals stolen and taken away from affiant by said Indians; and damages

from freezing and detention, \$5,000; and further damages for freight on 150,000 pounds merchandise from Alkali Station to Fort Laramie in the months of December and January, at 12 cents per pound, \$18,000—all of which damages and loss to affiant were consequent and resulting from the loss of said mules.

The affiant herewith offers, in support of the claim above set forth, the acknowledgment of the chiefs and headmen of said Sioux Indians, and the evidence of other witnesses, to support said acknowledgment, and more definitely to establish the value of property lost, and the damages resulting therefrom. And further affiant saith not.

SETH E. WARD.

Sworn to and subscribed before me, this 25th day of June, A. D. 1866.

*Acknowledgment of chiefs and head-men.*

In the matter of the claim of Seth E. Ward against the Government of the United States of America, for the loss of stock taken by the Brulé band of the Sioux Indians, near Alkali Station, in Nebraska Territory.

We, the undersigned, chiefs and head-men of the Sioux Nation, acting for and on behalf of the tribe, in the presence of and in open council, acknowledge and admit that on the night of the 2d day of December, A. D. 1865, near Alkali Station, in the Territory of Nebraska, a part of the Brulé band of said Sioux Nation took and drove away one hundred and fifty-nine mules and one mare owned by Seth E. Ward and belonging to his train, near said station; and that said stock has never been returned to said Ward, or paid for by the Indians.

*Affidavit of Edgar F. Bruce.*

TERRITORY OF NEBRASKA, County of Otoe, ss :

Edgar F. Bruce, being first duly sworn according to law, upon his oath says that on the first day of December, A. D. 1865, he overtook Seth E. Ward's train and took charge of the same; that on the second of December, A. D. 1865, at 8 o'clock a. m., he reached Alkali Station with said train, and was stopped by commanding officer of that post (Alkali) until fifty men were prepared to move forward, that number being required by the military authorities there; that on the same day, to wit, the second day of December, A. D. 1865, after 12 o'clock, m., of that day, the required number of men having arrived, he immediately prepared to move on with the train, it being late in the season, and affiant being very anxious to push on at all hazards; but he was again halted by the said commanding officer, and told by him, the said commanding officer, that no train was allowed to leave that post (Alkali) in the evening, so affiant was compelled to remain over. Affiant further states that that night, to wit, on second day of December, A. D. 1865, or early next morning, about 2 o'clock, the whole herd belonging to said train, and consisting of one hundred and fifty-nine mules and one bell-mare, was stampeded by Indians. Affiant thereupon immediately applied to the said commanding officer at Alkali Station for assistance to recover the said stock stampeded as aforesaid, but was told by him he could send no men out to recover them, as his horses were not in condition for such service, having been without forage for five days. Affiant insisted again and again for assistance as aforesaid, but to each earnest application he received from the said commanding officer the same answer as above given, and that he could do nothing for this affiant in recovering said stock. Affiant further saith, that on the morning of the fifth day of December, A. D. 1865, he got eight men and horses from the said commanding officer, and followed the trail of the said Indians south. After going about twenty miles the horses furnished as aforesaid all gave out, and he was compelled to return to Alkali, and that on the tenth day of December, 1865, he found one mule nine miles from Alkali, on the south side of North Platte River, and followed the Indian trail for some distance, finding repeated signs of Indians, but were unable to move after them, as he had no animals in condition for such service. The herd, when stampeded, was evidently divided, part going south and the remainder north.

And affiant further states, that Magil Chanz and P. H. Hoff were with this affiant during the occurrence and transaction of all the several matters and things hereinbefore mentioned and set forth, in relation to the following the trail of the said Indians in search of the said mules stampeded and run off by the Indians as aforesaid.

And this affiant further saith, that the said commanding officer at Alkali Station would not furnish affiant with the said eight horses hereinbefore mentioned unless affiant would furnish forage for them, (horses,) and affiant did furnish forage for said horses during the time they were used as aforesaid in searching for said mules; and further affiant saith not.

*Affidavit of Seth Ward.*

In the matter of the claim of Seth E. Ward against the Government of the United States.

TERRITORY OF NEBRASKA, *County of Otoe, ss :*

Seth Ward, being first duly sworn according to law, upon his own oath deposes and says that on or about the 9th day of November, A. D. 1865, he left Nebraska City, Nebraska Territory, with his own train, and in company with the train of Seth E. Ward started westward with loads of freight. Affiant's train and said Ward's train traveled together, and when they reached the junction of the roads from Nebraska City and from Plattsburgh, about one hundred miles from Nebraska City, the wagon-master of said Seth E. Ward's train was killed, and affiant took charge of said Ward's train, with Calvin F. Russell as assistant. The two trains then moved on and reached Fort Kearney, Nebraska Territory, at which place the military authorities there organized the said trains, with others there, into two large trains. Affiant with his train was placed with a Dr. Rosson's train and other scattering wagons, and thus formed a train with fifty men. Seth E. Ward's, then under the said C. F. Russell, was put with one Hockaday's train. Seth E. Ward's train alone consisted of thirty men. The trains then all moved on westward together, all of them or both of the two large trains keeping in sight and close together, so that there was no danger from the Indians. On the evening of the 1st day of December, the train that affiant was with, and said Seth E. Ward's train of thirty men, encamped within the military reservation of Alkali Station, and within a mile of the post quarters. The next morning affiant's train of fifty men moved on their way westward, and Seth E. Ward's train started on after them immediately. The train affiant was with was allowed to pass by the station, but when Seth E. Ward's train, who was close behind and in full sight of affiant's train, attempted to pass by the station, (Alkali,) the said train was stopped by the military authorities at said Alkali Station and were not permitted to go on, although the said train was traveling with affiant's train, which made the force of said train eighty men. Affiant further says, that one E. F. Bruce had overtaken said Ward's train on the evening of the 1st of December, and had taken charge of it as wagon-master, and was in charge of it when stopped as aforesaid by the said authorities. Affiant further says that said Ward's train was, when stopped, as close to affiant's train as trains in company with each other usually or can well travel, and was in full sight of each other; and that had not said Ward's train been stopped there would have been no danger of Indian depredations, as there would have been eighty men together for defensive purposes. Affiant further says, that said Ward's train was then compelled to stop at Alkali Station, and was not permitted to leave that day, to wit, the 2d day of December, 1865, from said station, thus compelling the train to encamp at said station on the night of said day, and that on that night all the mules belonging to said Seth E. Ward's train were stampeded and run off by the Indians, thus losing one hundred and sixty mules and one bell-mare, while the train affiant was with passed on westward without molestation from Indians; further he saith not.

SETH WARD.

Sworn before me and subscribed in my presence this the 18th day of May, A. D. 1866. In witness whereof I have hereunto set my hand and notarial seal of office, in Nebraska City, Nebraska Territory, this day and year above stated.

*Affidavit of Calvin F. Russell.*

In the matter of the claim of Seth E. Ward against the Government of the United States.

TERRITORY OF NEBRASKA, *County of Otoe, ss :*

Calvin F. Russell, being first duly sworn according to law, upon his own oath deposes and says that on or about the 9th day of November, A. D. 1865, he started with Seth Ward's train from Nebraska City, Nebraska Territory, for the west, as an assistant wagon-master under David McKee, wagon-master. The said train was in company with Seth Ward's train, and the two trains traveled together. When about one hundred miles out from Nebraska City, Nebraska Territory, the said McKee was killed, and Seth Ward assumed charge of said Seth E. Ward's train, with affiant as assistant. When the trains reached Fort Kearney, Nebraska Territory, the military authorities there formed two large trains

out of the said Seth E. Ward's one train and the said Seth Ward's and several others there. Affiant then took charge of said Seth E. Ward's train, which was put with the train of one Hockaday. The train of Seth Ward was placed with a Dr. Rossen's train and other scattering wagons. But all of the trains traveled together, within sight of each other, and encamped together. On the evening of the first day of December they reached Alkali Station, and the train affiant was with, that is, Seth E. Ward's train, of thirty men, and the train of said Seth Ward, of fifty men, encamped together on the military reservation of Alkali Station, and within a mile of the post quarters. The next morning Seth Ward's train of fifty men moved off on the road westward, and said Seth E. Ward's train started after it, when it was stopped by the military authorities at said Alkali Station, and prevented from passing said station. When said Seth E. Ward's train was so stopped, the other train of Seth Ward was not out of sight, and there was not between the said trains more than the usual distance absolutely necessary between trains traveling in company with each other. They were strictly traveling together. Said Seth E. Ward's train was then detained all of the said 2d day of December, A. D. 1865, at said Alkali Station, by the commanding officer, then Colonel Fleming, who stopped the train as aforesaid. Affiant further says, that by order of said commanding officer the said Seth E. Ward's train was encamped within one quarter of a mile of the post-quarters at Alkali Station on the night of the second of December. Affiant was, on that day, second December, assistant wagon-master, as E. F. Bruce had arrived the day before and assumed charge of the train as wagon-master. And further affiant saith not.

*Affidavit of Calvin F. Russell.*

TERRITORY OF NEBRASKA, County of Otoe, ss :

Calvin F. Russell, being first duly sworn according to law, upon his own oath says that he was with the train of Seth E. Ward at Alkali Station on the 2d day of December, A. D. 1865, in the capacity of assistant wagon-master; that said train reached Alkali Station at 8 o'clock a. m. of said 2d day of December, 1865, and was stopped there by the commanding officer at that post until fifty men could be prepared to move with said train, that number being required by the military authorities there; that on the same day, to wit, 2d day of December, 1865, after 12 o'clock m. of that day, the required number of men having been obtained, he, in connection with E. F. Bruce, the wagon-master, prepared to immediately move forward with the said train, as it was getting late in the season, and affiant was very anxious to move a 1  
was again stopped by said commanding officer, and prevented from moving on, as the said commanding officer told affiant that no train was allowed to leave the said Alkali Station in the afternoon, so the train was compelled and forced by said commanding officer to remain over. Affiant further states that that night, to wit, on the 2d day of December, A. D. 1865, or early next morning, about 2 o'clock, the whole herd belonging to said train, and consisting of one hundred and fifty-nine mules and one bell-mare, was stampeded by Indians. Affiant thereupon immediately applied to the said commanding officer at Alkali Station for assistance to recover the said stock, stampeded as aforesaid, but was told by him he could not send out any men to recover said mules and mare, as his horses were in such condition that they were entirely unfit for service, having been five days without any forage whatever. Affiant applied and earnestly insisted upon assistance divers and numerous times, and asked again and again for help to recover the mules and mare, but to each and every earnest application of affiant said commanding officer made the same answer, that he could do nothing toward recovering said stock. Affiant further says that three days after the transactions above mentioned and set forth, to wit, on the 5th day of December, A. D. 1865, the said commanding officer, in response to many and repeated importunities, let E. F. Bruce and affiant, the wagon-masters in charge, have eight horses and men upon condition that we would furnish forage to feed said horses, which we accordingly did. Affiant further states that after going twenty miles in search of the aforesaid mules and mares the said eight horses, furnished and fed as aforesaid, gave out, so they were compelled to return to said station. Affiant further says that on the 10th day of December, 1865, one mule which had been run off by the Indians as aforesaid, was found about nine miles from Alkali Station, on the south side of North Platte River, and that repeated signs of Indians near by were found, but owing to the condition of the horses

at Alkali Station in the Government service, they could not be pursued and the mule recovered, and further affiant saith not.

*Affidavit of John Heth.*

In the matter of the claim of Seth E. Ward against the Government of the United States for the loss of stock taken by the Indians near Alkali Station, in the Territory of Nebraska.

**TERRITORY OF NEBRASKA, County of Otoe :**

John Heth, being first duly sworn according to law, on oath deposeth and saith that he resides in Nebraska City, in the county of Otoe, and Territory of Nebraska; that he has been well acquainted with the claimant, Seth E. Ward, for about nine years, now last past, and has frequently seen the mule-train owned by said Seth E. Ward, which train left said Nebraska City on or about the 9th day of November, A. D. 1865, for Fort Laramie, in the Territory of Dakota, loaded with valuable freight for that point. And this affiant further says that he is well acquainted with the value of mules in the Territory of Nebraska, and that the said mules, one hundred and fifty-nine in number, were a superior lot; and on the 2d day of December, A. D. 1865, were worth at Alkali Station, or elsewhere in the Territory of Nebraska, the sum of at least \$47,700, and would readily have brought that sum in the market; and this affiant further says that the bell-mare, belonging to the said Seth E. Ward, and which accompanied the said train, was of the value of \$150; that the mules and mare herein mentioned are the same that are alleged to have been stolen by the Sioux Indians near Alkali Station in the Territory of Nebraska, on the night of the 2d day of December, A. D. 1865; and this affiant further states that he was present at the treaty in Fort Laramie, in June, A. D. 1866, made with the Sioux Indians; the United States being represented by Colonel E. B. Taylor, Colonel McLaren, Henry E. Maynadier, and Thomas Wistar, as commissioners, and that, in open council during the negotiations for said treaty and in presence of said tribe, the chiefs and head-men thereof acknowledged and admitted that the mules and mare above-mentioned, and belonging to said Seth E. Ward, were taken and driven off by a part of the Brulé band of said Sioux Nation, and appropriated to their own use, and that said property was so taken at or near said Alkali Station about the time herein stated; and affiant further says that no demand for the return of said mules and mare at said time and place, of and from the above-described Indians, was insisted upon for the reason, as affiant believes, that if such demand had then and there been insisted upon, the same would have interfered with and probably prevented the execution and signing of the treaty by said Indians; and affiant further saith that, at the making of said treaty, the said Indians had with them a portion of the mules aforesaid, and that this affiant then and there saw them in the possession of said Indians, and recognized them as being a portion of the same mules taken from the said Seth E. Ward, as hereinbefore set forth.

*Affidavit of P. H. Hoff.*

**TERRITORY OF NEBRASKA, County of Otoe, ss :**

P. H. Hoff, being first duly sworn according to law, upon his own oath says that on the morning of the 2d day of December, A. D. 1865, he was with the train of Seth E. Ward at Alkali Station in the capacity of a driver; that on said morning he knew the said train was stopped, by order of the commanding officer at that post, until fifty men were prepared to move forward with said train—that number he required by the military authorities there; that on the said 2d day of December, A. D. 1865, after 12 o'clock m. of that day, the required number of men having arrived, the train was ready and prepared to move on; that the owner of said train and the wagon-master in charge were very anxious to push on at all hazards, as it was very late in the season, but E

F. Bruce, the wagon-master in charge, was again halted and stopped by the said commanding officer at Alkali Station, and told by him, the said commanding officer, that no train was allowed to leave the post (Alkali) in the afternoon, so the train was compelled to remain over. Affiant further saith that that night, to wit, the night of the 2d day of December, A. D. 1865, or early next morning, about 2 o'clock, the whole herd belonging to said train, and consisting of one hundred and fifty-nine mules and one bell-mare, was stampeded by Indians; that application was immediately made to the commanding officer at Alkali Station for assistance to recover the said mules and mare stampeded as aforesaid, and that the said commanding officer replied that he could not send any men out to recover them, as his horses were not in condition for such service, having been without forage for five days. Affiant further states that said commanding officer was asked and implored by those having charge of train several and numerous times for assistance in recovering said stock, but to each earnest application the said commanding officer returned the same answer, that he could do nothing to assist in recovering said mules and mare. Affiant further saith that on the morning of the 5th day of December, A. D. 1865, the said commanding officer agreed to let eight men on horses go in search of said stock if forage was furnished by the train for said eight horses, which was done. Affiant further saith that, on the said 5th day of December, A. D. 1865, the said eight men, furnished in accordance with the agreement above given, accompanied by E. F. Bruce, Magil Chazy, and this affiant, started from Alkali Station and followed the trail of the Indians aforesaid south. After going about twenty miles all the horses furnished as aforesaid gave out, and they were compelled to return to Alkali. Affiant further states that on the 10th day of December, A. D. 1865, one mule, which was run off, was found about nine miles from Alkali, on the south side of North Platte River, and that he, with others, followed the Indian trail for some distance, finding repeated signs of Indians, but were unable to move after them, as they had no horses or animals in condition for such service. The herd when stampeded was evidently divided, part going south and the remainder north. And further affiant saith not.

*Deposition of G. P. Beauvais.*

In the matter of the claim of Seth E. Ward against the United States for losses sustained from depredations of Sioux Indians.

TERRITORY OF DAKOTA, *Fort Laramie, ss:*

Geminim P. Beauvais, being first duly sworn, on oath deposes and says that for many years he has been doing business in the vicinity of Fort Laramie, and from the very character of his business he has been familiar with the prices of animals employed in freighting, and also with the ruling prices paid in the different seasons of the year for freight between this place and any given point between this place and the Missouri River. This affiant deposes and says that he knows nothing of the stealing of a large number of mules from Seth E. Ward, on the 2d day of December, A. D. 1865, by a band of Sioux, except the acknowledgment of the Indians themselves, and seeing and recognizing many of said mules in the possession of said Indians, who acknowledged that they had stolen them. I had seen said train of mules drawing twenty-five wagons, and believe them to have numbered about one hundred and fifty, probably, (from a few extra mules,) one hundred and sixty; said mules were large and well selected, and considered by me as the best mule-train on the road, and must have been worth at a moderate valuation \$300 apiece. This affiant further says that at the time said mules were stolen, to wit, the 2d day of December, A. D. 1865, the price of freight from Alkali Station in Nebraska Territory to Fort Laramie was worth about 10 cents per pound, and further saith not.

In the matter of the claim of Seth E. Ward against the Government of the United States for damages from depredations of Sioux and Cheyenne Indians.

FORT LARAMIE, *Dakota Territory, ss:*

Samuel D. Childs, captain and lately post-quartermaster at Fort Laramie, Dakota Territory, being first duly sworn, upon oath deposeseth and saith that he has been on duty as post-quartermaster during the last year ended in June last, and that he is well acquainted with the rates of transportation paid by the United States during the winter of 1865 and 1866; that in the month of January, A. D. 1866, he contracted for the delivery of freight from Fort Laramie to Fort Casper, in Dakota Territory, at the rate of 10 cents per pound for a distance of about one hundred and thirty miles; that he contracted (after having advertised for bids) for the delivery of 100,000 pounds of freight to be taken from said Fort Laramie to Fort Reno, also in Dakota Territory; and that the lowest bid was 9½ cents per pound for transporting freight a distance of about one hundred and seventy miles. This affiant further deposeseth and saith that, in his judgment, as one well acquainted with the rates of freight paid for transportation, that 12 cents per pound, as charged by Seth E. Ward for damages consequent from the loss of his mules at Alkali Station, thereby incurring the necessity, at that inclement season of the year, of sending oxen to bring up his wagons and merchandise, when compared with the rates generally paid at that season of the year, is not too much. Said affiant further saith that the danger of transporting freight over the plains during the winter months is very great, and that frequently it is attended with large losses of cattle; and further deponent saith not.

*Letter of Vital Jarrot to D. N. Cooley.*

FORT LARAMIE, DAKOTA TERRITORY,  
July 12, 1866.

SIR: I have the honor of forwarding to you by claimant the petitions of Seth E. Ward, claiming indemnity from the Government for Indian depredations. By the act approved June 30, 1834, it is contemplated that the United States Indian agent shall demand satisfaction of the tribes perpetrating the depredations. Though in the council making the late treaty the chiefs protested against paying this claim, pleading inability, and expressing the desire that the Government should pay it; yet I deemed it my duty to make a formal demand from the chiefs in compliance with the law. They confessed to the charges made in the petitions of Mr. Seth E. Ward, and admitted the claims to be just; but that they, the Indians, could not pay them. I, therefore, in compliance with the law, forward you all the evidence taken in support of said petition, that such further steps may be taken as shall be proper to obtain satisfaction for the losses of said petitioner,

Very respectfully, your obedient servant,

VITAL JARROT,  
United States Indian Agent.

Hon. D. N. COOLEY.

*Letter of Commissioner of Indian Affairs to Hon. P. W. Hitchcock.*

DEPARTMENT OF THE INTERIOR,  
OFFICE INDIAN AFFAIRS,  
Washington, D. C., January 22, 1867.

SIR: I have the honor to acknowledge the receipt of your letter of this date, transmitting the claims of Seth E. Ward, B. B. Mills, and Charles E. Maguire, parties resident at Fort Laramie, Dakota Territory, for depredations committed by Brulé and Ogallala Sioux, near that post, and on the overland route, in 1865.

The Indians referred to were parties to the treaty of Fort Laramie, and have had no annuities, which could, according to the ruling of the Department hitherto, be applied in payment for depredations; but, waiving that point, the stipulations of the treaty referred to, as amended by the Senate, have expired, and the last appropriation under it has been exhausted.

These Indians have made another treaty with commissioners appointed by the President, but it has not yet been ratified by the Government. If it were so ratified, claims for losses incurred previous to the date of the treaty could not properly be paid from the annuities provided for in it.

The only resource of the parties for relief appears to be by application to Congress, and I herewith return the papers, in order that you may give them such direction, if you deem it advisable.

Very respectfully, your obedient servant,

LEWIS V. BOGY,  
Commissioner.

Hon. P. W. HITCHCOCK,  
Member of Congress, House of Representatives.

For 48 head large oxen, at \$100 .....	\$4, 800
For 5 head large mules, at \$300 .....	1, 500
For 21 head horses, at \$100 .....	2, 100
	<u>8, 400</u>

In the matter of the claim of Seth E. Ward against the United States Government for the loss of stock taken by the Brulé and Ogallala bands of Sioux Indians, near Fort Laramie, Dakota Territory.

## TERRITORY OF DAKOTA, Fort Laramie, ss:

Seth E. Ward, being first duly sworn according to law, on oath deposes and says that he is the sutler of the post of Fort Laramie, and that his business requires him to keep part of his stock of horses, mules and cattle, in the vicinity of said Fort Laramie. The

between the 9th day of August, 1865, and the 5th day of January, 1866, the Brulé and Ogallala Sioux Indians (or a part of them) did steal and drive away the following stock, the property of Seth E. Ward, to wit, forty-eight head large oxen of the value of \$100 each, five head of large mules of the value of \$300 each, and twenty-one head horses of the value of \$100 each. This affiant, Seth E. Ward, further says that he has never yet received any pay for said loss either from the Indians or from any other source, nor has he ever sought private satisfaction in revengeful acts on said Indians, but makes this application to the Government of the United States, in conformity with the law, for such cases made and provided, for the recovery of \$8,400, being the actual value of the animals stolen and taken away from affiant by said Indians. This affiant herewith offers in support of the claim above set forth, the acknowledgment of chiefs and head-men of said Sioux Indian Nation, and the evidence of other witnesses to support said acknowledgment, and more definitely to establish the value of the property lost and the damages resulting therefrom; and further affiant saith not.

SETH E. WARD.

*Acknowledgment of chiefs and head-men.*

In the matter of the claim of Seth E. Ward against the Government of the United States for the loss of stock taken by the Brulé and Ogallala bands of Sioux Indians, near Fort Laramie, Dakota Territory:

We, the undersigned, chiefs and head-men of the tribes acting for and in behalf of the Sioux Nation, in their presence and in open council acknowledge and admit that, during last summer, fall, and winter, near Fort Laramie, Dakota Territory, a part of the Brulé and Ogallala band of the Sioux Nation took, and drove away, forty-eight head oxen, five head mules, and twenty-one horses owned by Seth E. Ward, and that the said mentioned stock has never been paid for or returned to said Seth E. Ward by any of said Indians.

*Contract between the United States and J. C. Irwin.*

Articles of agreement entered into this 27th day of June, 1865, between Captain William A. Murphy, commissary of subsistence, an officer in the service of the United States of America, of the one part, and J. C. Irwin, of the county of Leavenworth, in the State of Kansas, of the other part. This agreement witnesseth that the said Captain William A. Murphy, commissary of subsistence, for and in behalf of the United States of America, and the said J. C. Irwin, for himself, his heirs, executors and administrators, have mutually agreed, and by these presents do mutually covenant and agree to and with each other as follows, viz :

1st. That the said J. C. Irwin shall deliver from the block to troops at Fort Laramie, Dakota Territory, fresh beef, of a good and marketable quality, in equal proportions of fore and hind quarters meat, (necks, shanks, and kidney-tallow to be excluded,) in such quantities as may be from time to time required, and on such days as shall be designated by the commanding officer; this contract to be in force for one year, or such less time as the Commissary-General of Subsistence may direct, commencing on the 1st day of August, 1865.

2d. The necks of the cattle slaughtered for beef, to be delivered under this agreement, shall be cut off at the fourth vertebral joint, and the breast trimmed down; the shanks of fore-quarters shall be cut off from three to four inches above the knee-joints, and of hind-quarters from six to eight inches above the gambrel or hock joint.

3d. The said J. C. Irwin shall receive fourteen and nine-tenths cents per pound for the fresh beef accepted under this contract.

4th. Payment shall be made monthly for the quantity of fresh beef accepted, and in funds furnished by the United States for public disbursement, but in the event of the commissary who receives the beef being without funds to pay it, then payment to be made as soon after as funds may be received for the purpose.

5th. Whenever the beef to be issued by this contract shall, in the opinion of the commanding officer, be unfit for issue or of a quality inferior to that required by the contract, a survey shall be held thereon by two officers, to be designated by the commanding officers, and in case of disagreement a third person shall be chosen by these two officers, the three thus appointed and chosen shall have power to reject such parts (or the whole) of the fresh beef as to them appear unfit for issue, or of a quality inferior to that contracted for.

6th. In case of failure or deficiency in the quality or quantity of the fresh beef stipulated to be delivered, then the commissary at Fort Laramie, Dakota Territory, shall have power to supply the deficiency by purchase, and the said J. C. Irwin will be charged with the difference of cost.

7th. The commissary of subsistence at Fort Laramie, Dakota Territory, shall have power to slaughter captured cattle for the supply of fresh beef for all or any portion of the amount required under this contract.

8th. No member of Congress, officer, or agent of the Government or any person employed in the public service, shall be admitted to any share herein, or to any benefit

which may arise therefrom. In witness whereof the undersigned have hereunto placed their hands and seals the day and date first above written.

RELIEF OF CERTAIN INDIANS IN TEXAS.

LETTER

FROM

THE SECRETARY OF THE INTERIOR,

RELATIVE TO

*House bill 3090, entitled "A bill for the relief of the Alabama, Cooshatta, and Muscogee tribes of Indians in Texas."*

FEBRUARY 25, 1873.—Referred to the Committee on Indian Affairs and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
Washington, D. C., February 11, 1873.

SIR: I have the honor to transmit herewith copy of a letter addressed to this Department, dated the 10th instant, from the Acting Commissioner of Indian Affairs, relating to House bill No. 3090, entitled "A bill for the relief of the Alabama, Cooshatta, and Muscogee tribes of Indians in Texas."

This bill contemplates legislative action intended to effect the removal of said Indians from their present location to some place in what is termed the Indian Territory; and in reference to the propriety of such legislation, the opinion of the Indian Office and of this Department is desired.

It must be borne in mind that these Indians are at present upon a reservation embracing about twelve hundred acres of land, which, I am informed, they received from the State of Texas; and it would seem proper to remark that some provision should be made in the bill which would secure to them the value of this land.

In reference to the principal object and general scope of the bill, I beg to remark that I concur generally in the observations of the Acting Commissioner of Indian Affairs, in his communication before referred to. I desire to state, however, explicitly, that in my opinion, if an effort is made to remove these Indians, the first object should be to remove them to and consolidate them with the Creeks in the Indian Territory. But no power to do this should be conferred upon the Secretary of the Interior, unless it be executed with the joint consent of the Indians to be removed, and the Creek Indians, into whose territory it is proposed to take them.

Should it be impossible to obtain the consent necessary to effect this object, then I beg to suggest that it might be proper to endeavor to remove them on to a tract of land to be selected somewhere within the

Indian Territory, not embracing in quantity more than one hundred and sixty acres per capita.

I wish also to observe that it would be improper to attempt such removal, in my opinion, except upon the condition that the consent of the Indians to be removed could be voluntarily and properly obtained.

I have taken the liberty to have prepared, and send herewith, a draught of a bill intended to empower the Secretary of the Interior, if it becomes a law, to make the removal of the Indians upon either of the alternatives herein suggested.

I do not recommend the passage of this measure, nor do I urge upon Congress its consideration. What I desire to say is, that if anything is done it should be substantially what I have proposed in the draught herein submitted; and to such a measure I will simply say that this Department will interpose no objections.

Any measure of the kind suggested should be accompanied with an appropriation of not less than \$50,000, for the purpose of enabling the Secretary of the Interior to carry it into effect.

Very respectfully, your obedient servant,

C. DELANO, *Secretary.*

Hon. JAMES G. BLAINE,  
*Speaker of House of Representatives, Washington, D. C.*

---

A BILL for the relief of the Alabama, Cooshatta, and Muscogee Indians in Texas and Louisiana.

*Be it enacted by the Senate and House of Representatives of the United States in Congress assembled,* That the Secretary of the Interior be, and he is hereby, authorized and directed to cause to be removed, with their consent, from Louisiana and Texas, the Indians in said States, known as the Alabama, Cooshatta, and Muscogee Indians, to the Creek country in the Indian Territory, and to have them settled and incorporated as members of the Creek tribe of Indians: *Provided,* That this shall be done with the consent of said tribe; and if the said Creek tribe shall fail to consent to such removal, settlement, and incorporation, then and in that case the Secretary of the Interior is authorized to remove and settle said Indians in some other part of the Indian Territory upon a reservation to be selected by him for that purpose, not to exceed in quantity one hundred and sixty acres for each person; and the sum of fifty thousand dollars, or so much thereof as may be necessary, be, and the same is hereby, appropriated, out of any money in the Treasury not otherwise appropriated, for the purpose of removing said Indians and locating them in the Indian Territory; for providing them with necessary farming implements and provisions, and for such objects as the Secretary of the Interior may deem proper and advisable to advance said Indians in the arts and customs of civilization: *Provided, however,* That no removal under the last proposition herein shall be attempted until the free consent of said Indians shall have been obtained for such purpose.

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
Washington, D. C., February 10, 1873.

SIR: I have the honor to acknowledge the receipt by reference from you of a communication addressed to the Department under date of the 5th instant by the Hon. W. S. Herndon of the House of Representatives, inclosing a copy of House bill No. 3090, entitled "A bill for the relief of the Alabama, Cooshatta, and Muscogee tribes of Indians in Texas," in regard to which Mr. Herndon presents several interrogatories, and to which reply is made as follows:

1st. All the information this office has in regard to these Indians, except that contained in the communication of Mr. Herndon, is embraced

in a communication from Samuel M. Whiteside, captain Sixth Cavalry, United States Army, dated February 6, 1870, which will be found on pages 326, 327, and 328 of the report of the Commissioner of Indian Affairs of 1870. Judging from the statements, it does not appear that these Indians are in a condition to be properly recognized as citizens, and subject to taxation and entitled to franchise; and it would probably be better for them and the community at large in which they are if they were removed to the Indian Territory and cared for like other Indians.

2d. There would be no objection on the part of this office to their removal to the Indian Territory and their consolidation with the Creeks there; but it would not be proper to do this without the consent of the Creeks now resident in said Territory.

3d. I am not aware that the Creek Indians in the Indian Territory have ever consented to the removal of these scattering Indians to their country, and for their uniting with them and enjoying the same privileges that the Creeks do.

4th. As stated before, I think, in view of existing laws and treaty stipulations, it would not be proper to remove the Indians in question to the Creek country without first obtaining the consent of the Creek Nation or tribe. Should provision be made by Congress for the removal of these Indians in Texas and Louisiana to the Creek country, steps will be taken by this office to ascertain the views of the nation or tribe in regard to the matter, and in case the tribe decline to receive them upon equal terms, &c., they could be removed to some other part of the Territory and settled upon lands which have been ceded to the United States for the purpose of locating friendly Indians thereon. If this course is adopted I would respectfully suggest, in view of the number of Indians to be removed and cared for, that an appropriation of at least \$50,000 be made, in order that there may be a sufficient amount for the purpose.

The papers are respectfully returned herewith.

Very respectfully, your obedient servant,

H. R. CLUM,  
*Acting Commissioner.*

LETTER  
FROM  
THE SECRETARY OF THE INTERIOR,  
RELATIVE TO

*The claim of Christopher Weidner for depredations in October, 1868, by  
Cheyenne and Arapaho Indians.*

---

FEBRUARY 25, 1873.—Referred to the Committee of Claims and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
Washington City, February 21, 1873.

SIR: In compliance with the terms of the seventh section of the act approved May 29, 1872, entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian tribes, for the year ending June 30, 1873, and for other purposes," I have the honor to transmit herewith the claim of Christopher Weidner for compensation on account of depredations committed by Cheyenne and Arapaho Indians.

A letter (copy inclosed) dated the 15th day of February, 1873, from the Commissioner of Indian Affairs, reporting the nature, character, and amount of said claim, is accompanied by the evidence presented in support thereof, and shows the action taken by that officer, under the rules and regulations prescribed by this Department for the investigation of such claims. All of which is respectfully submitted for the consideration of Congress, as contemplated by said seventh section of the act aforesaid.

Very respectfully, your obedient servant,

C. DELANO,  
Secretary.

*The Hon. SPEAKER of the House of Representatives.*

DEPARTMENT OF THE INTERIOR,  
OFFICE OF INDIAN AFFAIRS,  
Washington, D. C., February 15, 1873.

SIR: I have the honor to submit for the action of the Department a claim of Christopher Weidner for \$1,650, the value of seven mules and four horses, alleged to have been stolen from him at his ranch in Picketon County, Kansas, by Cheyenne and Arapaho Indians.

The claim, in the judgment of this Office, is clearly established by the testimony adduced, and it is respectfully recommended that the claimant be allowed, as a full indemnity for his loss, the sum of \$1,250, being \$150 for each mule, the estimated average value of mules heretofore given in regard to claims of this character, and for each of the horses, described by two of the affiants as "ponies," \$50.

Very respectfully, your obedient servant,

R. C. CLUM,  
*Acting Commissioner.*

Hon. C. DELANO,  
*Secretary of the Interior.*

CLAIM OF CHRISTOPHER WEIDNER.

STATE OF KANSAS, *County of Shawnee, ss :*

Christopher Weidner, being duly sworn, deposes and says, that he is and for one year last past has been a resident of the county of Picketon, State of Kansas, at Pawnee Fork, four miles east of Fort Larned, and that he resided with his family in the county and State last named on the 2d day of October, A. D. 1868, and at that time, about sunrise, a party of Indians, supposed to be Cheyennes and Arapahoes, made an attack on his ranch and drove off seven mules, worth \$150 each, and four horses, worth \$150 each—whole value \$1,650—all of which were the property of this deponent; and he further says that the above values are reasonable and fair, and not above the market-value at the time and place of the above loss; and that he has not recovered any portion of said property, nor received any pay therefor; and that he has not before made any written application for payment of the same; and deponent says he has not sought any private revenge or redress against said Cheyenne and Arapaho Indians on account of said depredations, nor on any account whatever. And deponent further solemnly swears that he is now, and always has been, a true and loyal subject of the United States; that he has never borne arms against the Government of the same, nor has he in any way or manner, either directly or indirectly, given aid, comfort, or assistance to the enemies, foreign or domestic, of the United States of America; and further this deponent says not.

The claim of Christopher Weidner, for a depredation alleged to have been committed by Cheyennes and Arapahoes on the 2d of October, 1868, was presented to the chiefs and head-men of the Cheyenne tribe in council, for investigation. After carefully reviewing the facts in the case, the Cheyennes deny any participation in the depredation set forth in the claim. Satisfaction was demanded therefor.

From all I have been able to learn, the Cheyennes had no part in the above-described depredation.

## FORTY-SECOND CONGRESS—THIRD SESSION.

### CONGRESS OF THE UNITED STATES.

*In the House of Representatives, December 16, 1872.*

On motion of Mr. WALLACE,

*Resolved*, That the Secretary of War be instructed to furnish to the House of Representatives a detailed statement containing the amount of money, and by whom expended, in payment of the Florida militia, by virtue of an act entitled "An act for the payment of Florida militia called into service in the years 1839 and 1840," approved August 23, 1842, or by virtue of any other act bearing upon the same subject.

Attest:

EDWARD McPHERSON, *Clerk.*

[First indorsement.]

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE,  
*Washington, December 19, 1872.*

THIRD AUDITOR'S OFFICE, *January 11, 1873.*

---

JULY 8, 1840.

SIR: In reply to the inquiries of the Honorable Mr. Atherton, of the Committee of Ways and Means of the House of Representatives, in relation to the estimate for the service in Florida, contained in his letter of yesterday, I have the honor to state that there was a balance in the Treasury of the appropriations for the Florida war when the estimates for the present year were submitted, sufficient to meet all probable demands upon the Department to the end of the month of August. Strong hopes were entertained that the then approaching campaign

would terminate the war, and that no further appropriation would be required. Those hopes have been disappointed, and the war still continues. There is now a balance applicable to that service exceeding \$300,000, but as all the arrangements for another campaign must be made, and heavy expenses incurred, previous to the next session of Congress, a further appropriation is indispensable. The sum asked for, if the operations are not to be upon a more enlarged scale than those of last year, would probably be sufficient to meet all the demands of the service to the close of the next session of Congress. One-half the estimate would probably meet all demands to the 1st of December.

The arrearages alluded to in the estimate consisted of outstanding claims contracted principally by militia and volunteer officers, on account of the militia and volunteers, many of which have been presented, but the payment suspended until the accounts be investigated. Should any of them be allowed means for their payment will be necessary.

I return the letter of Mr. Atherton, and am, &c.,

TH. S. JESUP,  
Quartermaster-General.

Hon. J. R. POINSETT,  
Secretary of War, Washington City.

Official copy :

R. W. ALLEN,  
Assistant Quartermaster-General.

NOVEMBER 14, 1840.

SIR: I have the honor to submit an estimate of the account which will probably be required for the service of this Department in prosecuting the war in Florida. Taking the expenditures of the year ended the 30th of September as the standard, about \$1,100,000 will be required for the year 1841; and at least \$200,000 in addition to the small balance remaining in the Treasury, and in the hands of disbursing officers, will be required to carry the Department through the year, and for the payment of arrearages from 1835 to 1840, inclusive. It will be remembered that on the 2d of July last I presented an estimate for \$600,000 on account of the Florida service, which amount I considered necessary in addition to the balance then remaining of previous appropriations; that estimate I was required to modify and reduce to \$300,000. On presenting the modified estimate on the 8th of July, I expressed the opinion that it would probably meet all demands against the Department to the 1st of December. I now find that the whole appropriation will be exhausted before that time, and I respectfully ask that measures be adopted to obtain a partial appropriation of from three to four hundred thousand dollars, as early in the session as possible, and I have the honor to be, &c.,

TH. S. JESUP,  
Quartermaster-General.

Hon. J. R. POINSETT,  
Secretary of War, Washington City.

*Estimates of funds required for preventing and suppressing Indian hostilities in Florida in the year 1841.*

For preventing and suppressing Indian hostilities in Florida, to be expended under the direction of the Secretary of War, viz, for forage

for the horses of the mounted volunteers and militia, and for the horses, mules, and oxen, in the service of the trains; for freight or transportation of military supplies of every description from the places of purchase to Florida; for the purchase of wagons, harness, boats, and lighters, and other vessels; of horses, mules, and oxen to keep up the trains, tools, leather, and other materials for repairs; transportation within Florida, including the hire of steamboats and other vessels for service in the rivers and on the coasts, and the expenses of maintaining the several steamboats and transport schooners connected with the operations of the Army, hire of mechanics, laborers, mule-drivers, teamsters, and other assistants, including their subsistence; for miscellaneous and contingent charges, and for arrearages from 1835 to 1840 inclusive, \$1,300,000.

TH. S. JESUP,

OCTOBER 15, 1841.

SIR: I herewith transmit, for the decision of the accounting officers of the Treasury, two accounts against the Territory of Florida, amounting to \$8,557.58, for supplies furnished the two mounted companies of Florida Volunteers, commanded by Captains Mickler and Pellicier, subsequently mustered into the service of the United States, for the period for which the supplies were furnished, with the testimony taken by the board, and their report on the subject.

It will be perceived that the board is of opinion that the prices paid for some of the articles were exorbitant, and that in making out the account, to the original cost of the articles, there were added commission, freight, storage, interest on the amount expended, and from 10 to 12 per cent. profit. The board is further of opinion that the claimant should be paid for the supplies furnished at the prices similar articles cost the United States at Saint Augustine, adding thereto the amount paid for transportation as charged in the accounts, a reasonable *per diem* or monthly compensation as contractor, and a reasonable profit on the amount of his expenditures.

In these opinions the undersigned does not fully concur. He considers that the original vouchers for the purchase of the articles should be produced, as well as the vouchers exhibiting the amount paid for storage, wharfage, transportation, and the other incidental expenses, with evidence that the prices paid for the articles were the fair market price, and that the amount paid for services was reasonable and just. He further considers that from 10 to 12 per cent. on the amounts expended is no more than a reasonable profit for a merchant, but which should cover the interest on the money advanced, which it appears has been added to the price of the articles.

TH. S. JESUP,

*Quartermaster-General.*

DECEMBER 27, 1841.

SIR: In relation to the claim presented by General Mercer in behalf of the Union Bank of Florida, for an advance of funds to his excellency Governor Call, for the support of a militia force called into service for the protection of the inhabitants of Middle Florida, and for the suppression of Indian hostilities, I have the honor to report that among the papers referred to me is a copy of a letter from the War Department to General Taylor, dated the 28th of February, 1839, requesting him to authorize the governor, whenever the emergency may arise, to call into service an effective militia force, not to exceed three hundred men, to protect the inhabitants in the vicinity of Tallahassee. This authority of the War Department appears, by a statement of the Adjutant-General, to have been communicated by General Taylor in a letter to the governor dated the 21st of March, 1839. There is also, among the papers, a copy of a letter from the War Department to General Taylor, dated the 30th of August, 1839, requesting that authority be given without delay to Governor Call to raise a militia force not to exceed three hundred men, to be mustered into the service of the United States, which force was to be under the orders of the governor, who was to direct its operations. A copy of these instructions appears to have been sent from the War-Office direct to Governor Call. It appears from the papers before me that under these separate letters of authority certain companies, with a suitable staff, were called into service; but that difficulties occurring as to the mustering and supplying the greater part of them, the governor, under authority vested in him by the territorial legislature, obtained from the Union Bank of Florida, the sum of \$50,000 to purchase supplies and obtain transportation for them.

From the accounts of Governor Call, now in this office, it appears that he expended for authorized supplies the following sums, viz :

On account of the Quartermaster's Department.....	\$6,623 28
On account of the Medical Department.....	117 12
On account of the Subsistence Department.....	3,357 48
On account of the Purchasing Department.....	42 75
On account of the Ordnance Department.....	525 53
	<hr/>
	10,666 16
And that he advanced to Colonel J. B. Collins the sum of.....	\$26,114 00
And to Captain John Shaw, assistant quartermaster.....	500 00
	<hr/>
	26,614 00
Total.....	<hr/>
	37,280 16

From the accounts of Colonel Collins it appears that the greater part of the property purchased by Governor Call, as well as the whole amount purchased by the advance to himself, was applied to the supply of the troops in service—more than \$15,000 worth of it to those actually in the service of the United States.

Now, whatever may be thought at this time of the necessity of calling those troops into service, they were called out by the person not only authorized by the War Department to call them out, but to command a part of them, and direct their operations, even when taken into the service of the United States; that they have not all been mustered does not affect the principle of the claim; that objection is merely technical, and may be obviated by the authority of the War Department. Under all the circumstances of the case, therefore, I cannot perceive how the Department can, without a violation of all good faith, refuse to recognize those troops, not exceeding the force authorized, whether mustered or not, and to re-imburse all expenditures on account of their

supplies, &c., as far as they come within the established regulations for the government of the Army.

The claim of the Union Bank cannot, it seems to me, be recognized in any form in which it can be presented, but Governor Call is entitled to re-imbursement for his advances on account of the public service, so far as evidence is exhibited of their application to the purchase of articles recognized by the regulations as military supplies, and the issue of such supplies to the troops; and I respectfully recommend that a warrant be issued in his favor, or that of his authorized agent, for \$37,280, being the amount of his own disbursements, and his advances to Colonel Collins and Captain Shaw: he to be charged with the amount at the Treasury, and to be credited on showing the application to the service of the purchases made by himself, and by Colonel Collins and Captain Shaw, to the amount of the advances respectively made to them.

With high consideration and respect, I am, sir, &c.,

JULY 2, 1844

SIR : The first section of an act of Congress entitled "An act to enable the War Department to apply certain balances of appropriation, and for other purposes," approved the 17th of June, 1844, authorizes the "President of the United States to direct the application of any balances" remaining in the Treasury, or which may come into the Treasury, on the settlement of accounts, under any of the specific heads of appropriation in the acts of the 12th of June, 1838, and the 3d of March, 1839, to any arrearages chargeable to the general head of suppression of Indian hostilities. These balances are required for the payment of claims now in this office, or which are daily coming in, and as they cannot be applied without the special order of the President, I respectfully ask that the necessary order be obtained.

And I am, sir, &c.,

SIR : I have the honor to report that the sum of \$146,296.73 is required for the payment of accounts which have accrued in the course of the Florida war, between the 1st of November, 1835, and the 31st of

December, 1841, and which have been ascertained by examinations at this Office, and by a board of officers assembled for the purpose in Florida, to be just claims against the public, and now constitute an arrearage against this Department, for which I submit an estimate marked A.

Of this amount there accrued—

In 1835, claims amounting to.....	\$1,538 84
In 1836, claims amounting to.....	5,163 79
In 1837, claims amounting to.....	16,239 92
In 1838, claims amounting to.....	5,281 13
And since 1838, claims amounting to .....	118,073 05

In addition to this amount, it is ascertained that the sum of \$46,013.64 was paid under the authority of the executive of Florida connected with the operations of the territorial militia, not received into the service of the United States, which is also a fair and equitable claim against the public, and for which I submit an estimate marked B.

I respectfully recommend that appropriations be asked by the War Department to cover these arrearages, and that the proper accounting-officers be required by law to adjust and settle the accounts upon the principles of equity and justice, subject to the revision or under the direction of the Secretary of War.

## QUARTERMASTER GENERAL'S OFFICE.

*Washington City, May 19, 1842.*

P. S. In these estimates I have included only such claims as are usually paid through the Quartermaster's Department. There are outstanding claims against the Subsistence, Medical, and Ordnance Departments in addition to those for which I have estimated, and I have excluded all claims against the Quartermaster's Department about the correctness of which I entertained any doubt.

MAY 21, 1842.

SIR: In compliance with your instructions, I have the honor to submit an estimate of the probable amount required to pay claims against the Quartermaster's Department for supplies furnished and services rendered in connection with the operations of Florida militia called into service by the governor of the Territory in the years 1839 and 1840, and embraced in a report of the Inspector-General of the Army, Colonel Churchill, to the Secretary of War, of the 2d instant.

In an estimate for a single class of troops supplied from the same depots, with several other classes, and at the same time and by the same officers, absolute accuracy cannot be attained. This estimate must therefore be taken as a mere approximation to the truth. During the period which it embraced, supplies were furnished by officers in the service of the Territory of Florida partly to militia called regularly into service, under what the governor considered authority from the War Department, but which has not been acknowledged partly to militia actually in the service of the United States, and partly to militia in service by authority of the territorial legislature, or of some local commander acting on a sudden emergency; and wagons and other means of transportation were employed among the several classes of troops in the same manner as supplies were distributed. I could estimate for the whole with some degree of accuracy, but it is difficult now, if not impossible, to apportion the precise amount due to each class. The amount of my estimate is not more than will be required for the object for which it is made.

## QUARTERMASTER-GENERAL'S OFFICE.

*Washington City, May 21, 1842.*

*Estimate of the funds required for the payment of claims growing out of the operations of Florida militia stated to have served under the orders of the governors of Florida in the years 1839 and 1840, as embraced in the report of the Inspector-General, Colonel Churchill, to the Secretary of War, of the 2d of May, 1842:*

For fuel, forage, stationery, transportation, guides, expenses, &c..... \$56,000

JUNE 29, 1842.

SIR: The House of Representatives, in passing the military appropriation bill, which they sent to the Senate some days ago, sanctioned every object of expenditure embraced in the estimate from this office for the service in Florida, except the arrearage which had accrued in the prosecution of the war in that Territory prior to the close of last year. The Senate have returned the bill to the House amended by sanctioning the arrearage. It is important to the public creditors that that amendment be adopted by the House.

The arrearage from the 1st of November, 1835, to the 31st December, 1841, for services and supplies, usually paid for through the Quartermaster's Department, amounts to \$146,296.73, so far as accounts have been examined and found to be correct. In this amount not a single item is included which is not covered by existing laws; and of the amount there accrued—

In 1835 .....	\$1, 538 84
In 1836 .....	5, 163 79
In 1837 .....	16, 239 92
In 1838 .....	5, 281 13
And since 1838 .....	118, 073 05

This arrearage is made up of the following items:

For fuel .....	2, 140 87
For forage .....	83, 004 48
For stationery .....	660 65
For transportation .....	48, 702 31
For rents .....	3, 038 38
For laborers .....	8, 076 54
For guides .....	565 00
For express service .....	108 50

Total .....	<u>146, 296 73</u>
-------------	--------------------

I respectfully recommend that application be made through the Committee of Ways and Means for authority to pay this arrearage, or so much of it as, on a further examination, may be found just, under such restrictions as Congress may think proper to impose.

QUARTERMASTER-GENERAL'S OFFICE,  
*Washington City, September 8, 1842.*

SIR: In reply to your inquiry whether an advance not exceeding \$12,000 can be safely made on the accounts paid by the late Colonel Collins, and other quartermasters who received funds from the governor of Florida, I have the honor respectfully to remark that, after deducting all the charges that will probably be made against those officers, there

will remain due, on accounts which they have paid, for supplies and services connected with the troops called out by the said governor of Florida, an amount much larger, it is believed, than the sum proposed to be advanced.

I submit a copy of a report made on the 4th of March last, by which it will be seen that, after all probable deductions, about \$16,000 remained applicable to the claims of the Union Bank, and the Southern Life and Trust Company, that sum will be increased by the net proceeds of the cotton purchased by Colonel Collins, and afterwards exchanged for supplies, so far as those supplies can be traced to the public service. There will also be an addition of about \$1,700 on account of ordnance.

I believe that an advance on account of claims actually paid by funds advanced by the governor of Florida may be safely made to the agent or representative of the Territory, not to exceed \$12,000, and I respectfully advise that that sum be advanced, the Territory to be responsible until the accounts be adjusted at the Treasury.

MARCH 11, 1844.

SIR: By acts of Congress of the 12th of June, 1838, and the 3d of March, 1839, the appropriation for carrying on the war against the Seminole Indians in Florida, which had previously been made under one general head, were divided under several distinct heads. These divisions, from the constantly varying circumstances of the Indian war, were found extremely inconvenient in practice. Funds to meet every contingency were necessarily placed in the hands of the disbursing officers, but it was impossible so to adjust the amounts to each officer as to have in his hands at all times the exact sums necessary, without placing larger amounts at his disposal than the whole service required; the officers were unable to keep appropriation accounts in the field, but each man was obliged to apply the funds in his hands to all proper objects as they occurred. While, therefore, the aggregate amounts furnished to them were not more than the whole service required, there were excesses under some of the specific heads, and deficiencies under others. This difficulty might have been remedied at the Treasury, if the accounts had been settled every quarter as the law directs; but from want of sufficient force in the accounting-officer, as I understand, that was impossible. The consequence was, that considerable balances of the Florida appropriations, that should have been applicable to the settlement of those accounts, were carried to the surplus fund, and when the accounting-officers were able to take them up for examination, there were no appropriations remaining to which the excesses could be charged. To close them, legislative authority became necessary; and by the fourth section of an act of Congress, making appropriations for fulfilling treaty stipulations with various Indian tribes &c., and for other purposes, approved the 3d of March, 1843, the President was authorized to direct transfers to be made from any balances remaining under any of the specific heads of appropriation, to any other head of appropriation contained in said acts under which a defi-

ciency might exist. No provision was made, however, for appropriating the balances which had been carried to the surplus fund, all of which were necessary for the objects for which legislative aid had been involved.

In settling the accounts under the act referred to, the balances released under the several heads seem not to have been transferred as contemplated, but have accumulated in the Treasury, where they remain without any legal authority to use them; and nearly the whole appropriation for the payment of outstanding claims has been absorbed in the settlement of those accounts. Whether this state of things has arisen from defects in the law, or error in its application, the consequences are highly injurious to many honest claimants, whose claims have been necessarily postponed for want of appropriations to pay them.

The balances remaining in the Treasury on account of the Florida service, of appropriations made on the 12th of June, 1838, and the 3d of March, 1839, amount in the aggregate to \$159,894.10, and consist of the following items:

1. Freight, or transportation into Florida, &c.....	\$36,612 08
2. Transportation of supplies, &c.....	3,938 02
3. Transportation of 4,000 volunteers, &c.....	37,718 09
4. Hire of a corps of mechanics, &c.....	430 26
5. Miscellaneous and contingent charges.....	75,879 24
6. Drafts lying over, &c.....	5,316 41
	<hr/>
	159,894 10
	<hr/>

The balances of Florida appropriations carried to the surplus fund amount in the aggregate to \$149,284.32, and consist of the following items, viz:

1. For repressing hostilities of the Seminole Indians, appropriated the 29th of April, 1836, and carried to the surplus fund the 31st of December, 1839.....	\$49,701 22
2. Appropriated on the 12th of June, 1838, and the 3d of March, 1839, and carried to the surplus fund on the 31st December, 1841, viz:	
Pay for dragoons, volunteers, &c.....	\$1,064 05
Freight or transportation into Florida.....	5,335 95
Dragons, carts, &c.....	8,847 46
Transportation of supplies, &c.....	7,227 13
Pay of corps of mechanics.....	192 89
Transportation of 4,000 volunteers.....	22,483 86
Miscellaneous and contingent charges.....	30,174 63
Pay lying over and arrearages.....	16,967 79
Release and maintaining in service three vessels.....	7,289 34
	<hr/>
	99,583 10
Total.....	<hr/>
	149,284 32
	<hr/>

I respectfully ask that application be made to Congress to re-appropriate the balances which have been carried to the surplus fund, and to authorize the application of *them*, as well as of the balances now remaining in the Treasury, to the payment of all properly authenticated claims growing out of the service in Florida; and I have the honor to be, sir, &c.,

*Extract from report of the Quartermaster-General to the Secretary of War,  
dated October 25, 1843.*

\* \* \* \* \*

Of the unsettled Florida claims, principally growing out of the service of irregular bodies of militia and volunteers, an amount exceeding \$300,000 has been examined at this office and sent to the Treasury. The accounting officers have reported adversely on a part of it, and it is doubtful whether one-half of the amount will be paid, at least for some time to come; but a large portion of it is unquestionably just, and I recommend that an appropriation be asked to cover such part of it as the accounting officers may decide shall be paid.

YELLOWSTONE NATIONAL PARK.

LETTER

FROM THE

ACTING SECRETARY OF THE INTERIOR,

RECOMMENDING

*An appropriation for wagon-roads to Yellowstone Park.*

FEBRUARY 22, 1873.—Referred to the Committee on Appropriations and ordered to be printed.

DEPARTMENT OF THE INTERIOR,  
*Washington, D. C., February 20, 1873.*

SIR: I have the honor to transmit herewith a copy of a letter, dated the 3d instant, from N. P. Langford, esq., superintendent of the Yellowstone National Park, asking that there be appropriated by Congress the sum of \$15,000, for the purpose of opening up said park to the public by the construction of wagon-roads within its boundaries.

The necessity for such roads is fully set forth in Mr. Langford's report to this Department for 1872, a copy of which was transmitted to each House of Congress, on the 3d instant. Inasmuch as this interesting section of country has been set apart as a national park, it would seem only proper that the expense of making its varied attractions accessible to visitors should be borne by the General Government. The amount asked for is not large, and I cordially recommend its appropriation.

I am, sir, very respectfully, your obedient servant,

B. R. COWEN,  
*Acting Secretary.*

Hon. J. G. BLAINE,  
*Speaker of the House of Representatives.*

DEPARTMENT OF THE INTERIOR,  
*Washington, D. C., February 3, 1873.*

SIR: I respectfully request your approval of the estimate of \$15,000, for the expense of constructing wagon-roads into the Yellowstone National Park. The park is at present accessible by means of saddle and pack trains only, a mode of conveyance involving a great deal of labor, and attended with many inconveniences. I have made a very complete exploration of the park during the past summer, and am of

the opinion that good wagon-roads can be constructed from the northern and western borders of the park to the principal points of interest in this vast field of natural wonders, by routes indicated in my official report, (to which reference is respectfully made,) for not less than the sum named.

Such a possession as this, combining the most extensive aggregation of wonders in the world—wonders unexcelled, because nowhere else existing—should not want for care at the hands of the nation it adorns. It should speedily be made accessible by good roads; and when that is done, private enterprise will provide commodious public-houses and other necessary comforts for tourists.

A judicious expenditure of the appropriation asked will so enhance the rental value of leased premises that the income from these sources of revenue will be sufficient to defray all expenses necessary for maintaining the improvements made in proper repair.

I have honor to be, your obedient servant,

N. P. LANGFORD,

*Superintendent of the Yellowstone National Park.*

Hon. C. DELANO,

*Secretary of the Interior.*

# REPORT

OF THE

## CHIEF OF THE BUREAU OF STATISTICS.

TREASURY DEPARTMENT,

*Bureau of Statistics, November 4, 1872.*

SIR: I have the honor to submit the following report of the operations of this Bureau during the fiscal year ended June 30, 1872:

### CLERICAL FORCE.

The clerical force of the Bureau at the close of the year consisted of twenty-nine male and eight female clerks, who were employed as follows:

Division.	Name of chief.	Number of clerks.		
		Male.	Female.	Total.
Examination.....	J. N. Whitney .....	4	1	5
Compilation.....	Thomas Clear.....	14	2	16
Tonnage and immigration.....	L. F. Ward.....	3	1	4
Registry of merchant marine.....	J. B. Parker.....	3	1	4
Revision, translation, and miscellaneous.....	A. W. Angerer.....	2	1	3
Publication and miscellaneous.....	James Ryan.....	1	.....	1
Library and files.....	E. T. Peters.....	1	1	2
Stationery, pay, property, and copying.....	J. D. O'Connell.....	1	1	2

In addition to the female clerks above designated, one has charge of the correspondence.

At the present time the clerical force consists of one chief clerk, (E. B. Elliott, esq.,) thirty male and eight female clerks.

### WORK OF THE BUREAU.

The peculiar and varied character of the work performed in the Bureau renders it impossible to furnish a tabular statement of its nature and extent.

*Division of examination.*—The following embraces a part of the work performed in this division:

Number of pages of letters written.....	5,314
Letters acknowledged.....	2,317
Acknowledgments of statements written.....	6,300
Statements examined.....	2,130
Statements called for.....	929
Statements corrected by correspondence.....	1,503

The above figures give, however, a very inadequate conception of the critical and elaborate examination of the various monthly and quarterly returns from the various custom-houses, or of the variety of work of a miscellaneous character performed in that division.

*Compilation.*—This division is divided into sections, embracing respectively, statistics of home consumption, indirect and *in transitu* and of merchandise warehoused and withdrawn from warehouse.

It is impossible to present any statement which will give an adequate idea of the amount of labor performed by the clerks employed in the compilation of statistics of commerce in this division.

*Immigration and navigation.*—The difficulties of obtaining accurate statistics of the nationality and occupation, as well as the sex of each immigrant to this country, have been increased by the volume of immigration and by the carelessness of those who originate the record the *data*. Special efforts have been made to induce an improvement in this direction, which have only been partially successful. Efforts have been made to secure for publication accurate statistics of the departure of emigrants from this country, not entirely without success, but rendered difficult by the absence of compulsory legislation.

The compilation of statistics of navigation forms a considerable part of the work of this division, which has been increased by their publication monthly, instead of quarterly as formerly.

*Numbering of vessels, tonnage, &c.*—During the year official notices were assigned to about 2,900 vessels, which involved a considerable amount of labor in carefully searching the previous records to avoid duplication, in filling up and forwarding notices to the owners, and entering the awards upon a manuscript list as well as upon the permanent records of the office. The compiling, copying, proof-reading, and distribution of the last annual list of merchant-vessels, and the usual compilation for the monthly and annual reports of the Bureau, with a variety of miscellaneous work, fully occupied the remaining time of the clerks in this division.

A statement showing the number of vessels and amount of tonnage belonging to the several customs-districts of the United States, as of the 30th of June, 1872, geographically classified, is appended to this report. The aggregate tonnage of the country was 4,150,033, a net increase of 100,000 tons that at the close of the preceding fiscal year of 38,621 tons and 53 vessels.

*Revision and translation.*—The large and increasing amount of statistics compiled for publication and in response to requests for information, renders the work of revision one of great magnitude. Reviewed periodically, as this Bureau does, the statistical publications of various countries in continental Europe, which contain information of great value, the translation previous to publication, in addition to the translation of other information, adds very considerably to the work performed in this division.

*Publication, library, and miscellaneous.*—A detailed mention of the variety of work performed in these divisions would occupy too much space. It is sufficient to say that the duties of the clerks so employed are onerous and responsible.

#### PUBLICATIONS OF THE BUREAU.

*Monthly reports of commerce and navigation.*—The monthly reports of this Bureau have, as heretofore, been regularly published. Completed at the earliest date possible after the receipt and correction of the returns, they have, no doubt, been printed as early as the arrangements of the Congressional Printing-Office would permit.

It is to be regretted that the returns cannot be obtained and published as early as is done in England; but this will be impossible while

area of our territory is so extensive, and our customs-districts so remote. Custom-house returns can be conveyed from the most distant part of the United Kingdom to London in a few hours, while for transmission from Alaska and Santa Fé to Washington, several weeks' time is usually required. A single district, like that of Texas for instance, covers an extent of territory equal to the area of England, including within its limits several remote out-ports from which reports must be received at the principal office at the port of entry of the district before monthly statements can be prepared and transmitted by the collector. If, however, the statements could be earlier received, their immediate publication prior to the correction of the numerous errors which they contain would be deemed unwise, as tending to mislead. And while it is admitted that the monthly reports are not published so promptly as in some European countries, the undersigned is convinced from his personal observation, as well as by the admission of Government officials abroad, that in accuracy of statement the statistics of commerce and navigation, as prepared by this Bureau, are in a high degree satisfactory, and will favorably compare with most carefully prepared and trustworthy publications of other countries.

In addition to the usual statistics, miscellaneous information of great interest is published in each number, and every effort made to give the monthly increased value.

*Annual report of commerce, immigration, and navigation.*—The volume for the fiscal year 1871 was, in consequence of extra exertions, compiled and sent to the Congressional Printer sufficiently early to hope for its presentation to Congress in a printed form in December. But the pressure of other work upon the Congressional Printing-Office at that season, enhanced by the great amount of labor required in the composition and printing of over 800 pages of rule-and-figure work, caused some delay in its completion and distribution. The statements for the fiscal year 1872 have also been compiled and sent to the printer at the usual period; and every effort will be made to furnish the *data* to Congress early in the ensuing session.

*List of merchant-vessels of the United States.*—The fourth annual statement of "vessels registered, enrolled, and licensed, under the laws of the United States, designating the class, name, and place of registry," as well as the official number and signal letters awarded to each vessel, was prepared agreeably to the requirements of the act of July 28, 1866, and 2,500 copies published for distribution to the officers of customs, the commanders of United States war-vessels, and the largest merchant vessels engaged in the foreign trade, as well as to the principal ship-owners.

*History of the customs-tariff legislation of the United States.*—During the period under review, I had the honor to submit to you a special report on the above subject. The following extract from the introductory paragraph will partially explain the reasons why I charged myself with this extra duty:

Regarding it as being within the legitimate province of this Bureau to furnish any statistics of public utility, especially such as may supply the *data* needed in national legislation, and aware of the absorbing interest which attaches to a discussion of questions affecting the customs tariff, I have deemed it my duty to anticipate and make provision for the calls for information which, no doubt, will soon be made.

Its reception, when published by members of Congress and others, who stated that it supplied a want long felt, and the demand for its distribution, not only at home, but abroad, confirmed the views expressed in the above extract.

In view of the fact that urgent requests for copies of this report been made beyond the ability of the Bureau to supply, it is to be regretted that the resolution of the House Printing Committee to print seven thousand extra copies for distribution was not reported during the period of the session sufficiently early to insure its passage.

Personal requests from our commercial representatives in Europe made to the undersigned for copies of this document with its appended "statement of the rates of duties under the several tariff acts from 1790 to 1870," which they averred would prove of great value to the legations and consulates of the United States.

*Special report on immigration.*—Ten thousand copies of this report having been printed by order of Congress for gratuitous distribution to the United Kingdom of Great Britain and Ireland, a considerable number has been sent to the consuls of the United States and others for circulation; and the undersigned, while recently in that country, made arrangements as will insure their distribution in those places where it is believed the information will be of most service. The value of the document, and its influence in affording such information as has been the movement of a desirable class of emigrants to this country, have been felt and acknowledged. The only drawback is the absence of free pay for its transmission to intending emigrants, by mail or otherwise from Liverpool or Glasgow, to which places steamship lines have been requested, carried the books from New York free of charge. Congress has ordered the publication of the report in the German and French languages and the distribution of ten thousand copies of each to the consuls in Europe where those languages are spoken. A translation into the German language was made in this Bureau. When ready for delivery the edition in French will be sent to Havre and Antwerp, and the edition in German to Bremen or Hamburg; and efforts have already been made to some extent, by the undersigned, and will, in the future, be expected to have them conveyed to the interior of France, Belgium, Switzerland, Germany, and Austria. But the benefits expected from such publication cannot be realized unless funds be provided for the transmission of these books into the remote districts of the countries named, more especially of Germany, from which country the emigration of its people is not encouraged. Many copies might be so circulated, during the winter season at Vienna, as to reach interior portions of German and French-speaking countries. The appropriation of a few hundred or even a thousand dollars for the purpose indicated would, no doubt, prove a profitable investment.

The total number of persons of foreign birth who, in the year ending June 30, 1872, decided to make the United States their future home was 404,806, an increase of 83,456 over the immigration of the fiscal year ending June 30, 1871, of which 49,442 were males. The largest increase from any country was 58,555 from Germany, while from England the excess over the previous year was 13,234, and from Ireland 11,293. The increase from Ireland was nearly 200 per cent., being 3,137 in 1871, and 9,317 in 1872. The average value of an immigrant, as stated by the undersigned in the report above referred to, be \$800, the increment to our national wealth from this source in the past year amounts to \$66,764,800, while the aggregate economical value of the total addition to our population reaches the sum of \$323,844,800. Surely, so large an addition to our national wealth will justify the expenditure of a few hundred dollars for the diffusion of such information as will serve to increase the volume of the tide of immigration.

The recommendation to publish an edition of at least 5,000 copies

the Danish-Norwegian language, which was submitted last year, is again renewed, and the conviction more strongly entertained that the distribution of such an edition in Scandinavian countries would yield a rich return.

#### STATISTICS OF INDUSTRY AND OF TRANSPORTATION.

In two previous reports, to which attention is invited, the obstacles which prevented the obtaining the above statistics were mentioned and the fact deplored. In view of the fact that such statistics are obtained by many of the governments of Europe, it is humiliating to confess that the statistics of industry are here only obtained decennially, there being no legislation to compel annual returns to the Government of the United States.

It is especially desirable to obtain information regarding the movement of the crops toward the sea-board, and of merchandise into the interior; and from the data cheerfully furnished during the past year by officers of railroads, in response to circulars from this Bureau, it is believed that it will be able, before long, to publish valuable statistics of transportation.

#### INTERNATIONAL STATISTICAL CONGRESS.

Having been appointed by the President official delegate to the eighth session of the international statistical congress, the chief of this Bureau left New York for St. Petersburg in June last to attend the sittings of that body. Although the official report of his action will be made to the Department of State, it will not be inappropriate to refer here briefly to his labors as a member of that congress, especially as he was chiefly engaged in the sections, respectively, of commerce and industry. In the former section he was a member of the committee charged with the preparation of a plan for the uniform nomenclature and classification, for international purposes, of mercantile commodities to be used in the published statements of external commerce, and in the movement of merchandise by railways and on navigable waters. The report of the committee on this subject was subsequently adopted by the congress. The want of a uniform classification and a uniform nomenclature in the various branches of statistics has long been felt and deplored, rendering extremely difficult a comparison of the statistical results obtained by different countries; and the supply of this deficiency is a subject which has long enlisted the earnest efforts of the leading statisticians of the world.

In the section on industry much time was also devoted to the preparation of a uniform classification, for international purposes, of the various elements which enter into industrial statistics.

#### STATISTICS OF LABOR.

During his visit to Europe, for the purpose above indicated, the undersigned employed his time, before and after the meeting of the congress, in investigating the cost and condition of labor in those branches which compete with similar industries in the United States. Although such an investigation formed no part of his duties, either as delegate to the international statistical congress, or as chief of the Bureau of Statistics, and although no funds were provided by the Treasury to defray the expenses necessarily incurred in obtaining the desired information,

yet as such *data* were called for by a large number of members of Congress, and sought with avidity by the public, he charged himself with this task and personally visited the most important manufacturing cities in Great Britain, Belgium, and Germany. In England he visited Liverpool, Birkenhead, Birmingham, Wolverhampton, Sheffield, Manchester, Halifax, Bradford, Leeds, Nottingham, and other places in its vicinity, as well as the "black country," and other iron-producing regions. In Scotland the iron-ship building works on the Clyde, and the manufactories of Glasgow and Dundee, occupied his chief attention. On the continent he visited Antwerp, Brussels, Liege, Seraing, Namur, Charleroi, and Jumet, in Belgium; Aix-la-Chapelle, Cologne, Dusseldorf, Eberfeld, Barmen, Essen, and the coal and iron districts in its vicinity, in Rhenish Prussia; Chemnitz, Dresden, and Leipzig, in Saxony, with Berlin, Frankfort, and other Prussian cities, and also a number of smaller places in the several countries named. Among the most prominent industries examined on the continent may be mentioned the renowned steel-works of Mr. Krupp, at Essen; the iron machine works of the John Cockerill Company, at Seraing; the cotton mills at Huy, and other places; the glass, iron, and coal production in the Charleroi district; and the various manufactories in and about Chemnitz.

In France, owing to the unsettled state of the labor market, but few facts were obtained, and those chiefly in Paris, Lyons, and in those districts in the northern part of that country in which the textile manufactures and iron are chiefly produced.

In Russia the chief towns which he visited were St. Petersburg, Moscow, Nijni-Novgorod, and Warsaw, none of which, except the first named, have important industries. Russia iron, the superiority of which is universally known, being manufactured in a remote part of Europe, the cost of production is not easily ascertained.

From some other parts of Continental Europe information was obtained through correspondence relative to the cost of labor and of assistance.

The inquiries made in the places named embraced not only the cost of wages and the weekly earnings of male and female employes in the various industries pursued, but the cost of the chief articles of subsistence, the weekly expenditures for food, room-rent, &c., and the habits and habits of the working people as to health, comfort, education, and temperance.

Owing to the recent decided advance in the cost of labor in Europe, the published statistics on this subject were rendered comparatively valueless. If it were deemed important that the rates of wages prevailing during the past season, and which still prevail, be ascertained, extraordinary means must be resorted to; and it is manifest that a desirable result could only be accomplished through personal investigation and inquiry. The obtaining of such information was necessarily attended with difficulties, but these had to be met and surmounted. The *data* thus personally obtained, at no small cost of labor and money, may be not so full as may be desired, they are as a whole more accurate and consequently more trustworthy, than can be gathered from other sources.

The information already in the possession of the undersigned, supplemented by the facts which may yet be obtained from Europe and America, will be compiled at as early a period as his official engagements will permit.

## SALARIES OF OFFICERS.

In bearing testimony to the industry and efficiency of the clerks and other employes of this Bureau, the undersigned cannot close this report without again inviting your attention to the insufficient salaries paid to the officers. The responsible duties and exhaustive labors of the chiefs of division and other officers justly entitle them to a more adequate compensation than the salaries of clerks of the fourth class. It is respectfully urged, therefore, that several of these officers receive the salary of head of division, as provided by law for the Office of Internal Revenue.

Very respectfully, yours,

EDWARD YOUNG,  
*Chief of Bureau.*

HON. GEORGE S. BOUTWELL,  
*Secretary of the Treasury.*
